This meeting may be filmed for inclusion on the Council's website.

Please note that other people may film, record, tweet or blog from this meeting. The use of these images or recordings is not under the Council's control.

WOKINGHAM BOROUGH COUNCIL

Our Vision

A great place to live, an even better place to do business

Our Priorities

Improve educational attainment and focus on every child achieving their potential

Invest in regenerating towns and villages, support social and economic prosperity, whilst encouraging business growth

Ensure strong sustainable communities that are vibrant and supported by well designed development

Tackle traffic congestion in specific areas of the Borough

Improve the customer experience when accessing Council services

The Underpinning Principles

Offer excellent value for your Council Tax

Provide affordable homes

Look after the vulnerable

Improve health, wellbeing and quality of life

Maintain and improve the waste collection, recycling and fuel efficiency

Deliver quality in all that we do

For consideration by

Mark Ashwell, Executive Member for Planning and Regeneration

Officers Present

Vanessa Rowell, Senior Planning Officer

Arabella Yandle, Democratic Services Officer

OUTCOME / BENEFITS TO THE COMMUNITY

To ensure that Bracknell Forest Council's Strategic Housing and Economic Land Availability Assessment and the Draft Site Selection Methodology has minimal negative impacts upon Wokingham Borough and that any positive benefits are maximised.

RECOMMENDATION

The Executive Member for Planning and Regeneration

- 1) approves the comments outlined in this report
- 2) approves that they be submitted as a formal response to the consultation from Bracknell Forest Council on their final draft of the Strategic Housing and Economic Land Availability Assessment and the Draft Site Selection Methodology

SUMMARY OF REPORT

This report details the proposed response of Wokingham Borough Council to the consultation on the final draft of the Strategic Housing and Economic Land Availability Assessment and the Draft Site Selection Methodology

The content of this report includes the following:

- Considering the impact of the Strategic Housing and Economic Land Availability Assessment and the Draft Site Selection Methodology on Wokingham Borough.

Background

Bracknell Forest Council is consulting on its final draft of the Strategic Housing and Economic Land Availability Assessment (SHELAA) and the Draft Site Selection Methodology between 21 November – 19 December 2016. Due to tight timescales, it has not been possible to gain executive member sign off by the deadline and this report has therefore been sent as a holding response subject to official sign off.

Local Planning Authorities, county councils and some other bodies have a legal duty to co-operate on planning for sustainable development. This 'duty to co-operate' comprises a major consideration in the plan-making process. To satisfy the Duty to Co-operate, local planning authorities must work together and actively engage with each other on cross-boundary strategic matters, such as potential housing and economic land allocations in future local plans that may lie close to or straddle a local authority boundary.

The SHELAA identifies a future supply of land which is suitable, available and achievable for housing and economic development uses up until 2036; it does not allocate sites for development and it is just an initial first stage assessment of working out which sites will be potentially allocated through the Local Plan. The sites included in the SHELAA are those that have been submitted through the 'Call for Sites' consultations. Part One of the assessment outlines the overall proposed methodology for assessing land availability. Part Two of the assessment sets out the results of the SHELAA, where the methodology outlined in Part One of the assessment has been applied to sites that have been submitted through the 'Call for Sites' consultations for Bracknell Forest Council's Comprehensive Local Plan.

The Draft Site Selection Methodology sets out how Bracknell Forest Council intends on selecting sites through their Local Plan process in order to meet their needs for housing, employment and retail uses.

Analysis of Issues

Part One of the SHELAA is broadly in line with the methodology for the Berkshire Housing and Economic Land Availability Assessment (HELAA) which all of the other Berkshire Authorities have adopted and now published.

At this stage, Wokingham Borough Council only has one comment relating to Part One of the study, and that is in relation to the exclusion of sites that contain high pressure gas pipelines, oil pipelines, national grid transmission lines and immovable communication links (e.g. high speed fibre optic cables). It is recommended that Bracknell Forest Council reconsider the immediate exclusion of sites that include these forms of infrastructure, and instead consider whether mitigation measures could be taken which may mean these sites then become appropriate for development.

It is also noted that the Bracknell SHELAA intends on not focusing on sites which have already been allocated, those with planning permission, or those with a resolution to approve, subject to the completion of a section 106 agreement. Although Wokingham BC understands that the reason for this approach is to avoid duplication of information in Bracknell Forest Council's housing commitments, Bracknell Forest may want to consider adding those sites where permission has expired within the SHELAA.

Part Two of the SHELAA demonstrates the results of applying the methodology in Part One to the submitted sites. A number of sites have been identified that are either partially within the Wokingham Borough boundary or are within close proximity. A list of these sites is provided below and the outcomes of the SHELAA:

| Site Ref | Site Address | Suitability | Availability | Achievability | Deliverability/ Developability |
|---------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|-----------------------|------------------------|-------------------------------------------------|
| BIN13 | Western Field, land south of London Road | Potentially suitable | available | achievable | developable |
| SAND5 | Land east of Wokingham Road, and south of Duke's Ride (Derby Field) | Potentially suitable | Potentially available | Potentially achievable | Potentially developable |
| CLUSTER 1 (BIN7, BIN8, BIN9, BIN10 & BIN11) | Land west of Murrell Hill Lane, and south of Foxley Lane (comprising Foxley Fields, Whitehouse Farm, Murrell Hill Grange, Popes Manor and Popes Farm) | Potentially suitable | Potentially available | Potentially achievable | Potentially developable |
| BIN8 | Land south of Foxley Lane and west of Murrell Hill Lane (Foxley Fields) | Potentially suitable | available | achievable | developable |
| SAND1 | Silverdene, Ambarrow Lane | Suitability unknown | Potentially available | Potentially achievable | Not develop- Able within Next 15 years |
| SAND2 | Land to south of Sandhurst Lodge, Wokingham Road | Potentially suitable | Potentially available | Potentially achievable | Potentially developable |
| CLUSTER 3 (BRA3 AND BRA4) | Land at the Hideout and Beaufont Park, Nine Mile Ride | Potentially suitable | Potentially available | Potentially achievable | Potentially developable |
| BIN12 | Eastern Field, land south of London Road | Potentially suitable | available | achievable | developable |
| BIN14 | Land at Bigwood, Peacock Lane | Potentially suitable | available | achievable | developable |

Wokingham BC has already been provided with details of the above sites and we have also provided details of sites in Wokingham Borough to Bracknell Forest Council to make sure there is an awareness of cross boundary issues as part of the Duty to Co-operate. Furthermore, the West of Berkshire Spatial Planning Framework published on 13 December 2016 demonstrates the strategic priorities and projects that the authorities will work on collaboratively, which includes consideration of sites on the Wokingham Borough / Bracknell Forest boundary as part of the Duty to Co-operate.

There are no comments from Wokingham BC on the Draft Site Selection Methodology.

FINANCIAL IMPLICATIONS OF THE RECOMMENDATION

The Council faces severe financial challenges over the coming years as a result of the austerity measures implemented by the Government and subsequent reductions to public sector funding. It is estimated that Wokingham Borough Council will be required to make budget reductions in excess of £20m over the next three years and all Executive decisions should be made in this context.
