### RISK: Budget and financial resilience

Due to significant increased costs (including inflation and national minimum wage), loss of income, increased cost of borrowing and/or non-realisation of forecast savings and increased demand for services due to the cost of living there is a risk that the Council is unable to finance its current services resulting in a reduction in reserves, cuts in services, failure to meet statutory duties, and if unchecked a Section 114 notice.

### RISK: Uncontrolled Development - Local Plan Update

Without effective planning policies, there would be no real control or influence over where and how new housing and other types of development take place. ### 7 RISK: Adult Social Care Supplier Sustainability and Sufficiency

Due to increasing needs of our local older and disabled people population demand is increasing, placing the social care system under huge strain. It is acknowledged that nationally that there has historically been insufficient funding within the care sector to meet the challenges faced by our local care providers. The lack of a permanent, sustainable funding deal are further exacerbated by external factors including the cost-of-living crisis, inflationary pressures and workforce pressures impacting on capacity within the sector leading to a high level of instability within the social care market. There is a risk that a provider may fail, that we are carrying more statutory risk and higher waiting lists, or that we are unable to source care good quality, suitable care for a vulnerable resident. There have been recent provider failures in 2023 and more packages of care handed back by providers. Not only is this impacted on our finances but if the risk continues, it is expected to also have an impact on the quality of care delivered.

#### Existing Controls:

- Care Capacity Tracker monitoring and targeted action taken as required
- Lobbying of MPs and Government
- Workforce Strategy workstreams in place
- In-house provision (via Optalis) is seen as one of our best opportunity to control costs and managing sufficiency within the local market

- Quarterly provider forums
- Early warning flags identified for key providers
- Offered commissioned providers a 7% (capped so that rates did not go above acceptable threshold) uplift in 2023/24
- Allocation of existing government grants
- Market Sustainability Plan published
