

# Agenda Item 30.

<b>TITLE</b>	<b>Social Care Future</b>
<b>FOR CONSIDERATION BY</b>	Wokingham Borough Wellbeing Board on Thursday, 14 December 2023
<b>WARD</b>	None Specific
<b>DIRECTOR/ KEY OFFICER</b>	Matt Pope; Executive Director of Childrens, Adults and Health Services

<p>Health and Wellbeing Strategy priority/priorities most progressed through the report</p>	<p>Social Care Future (SCF) is a national movement for change that is working to ensure the care and support that we want for ourselves and our families meets our needs and is fit for the future we want.</p> <p>This will help promote the following Health and Wellbeing Strategy priorities:</p> <ul style="list-style-type: none"> <li>• Reduce the differences in health between different groups of people</li> <li>• Promote good mental health and wellbeing for all adults</li> </ul>
<p>Key outcomes achieved against the Strategy priority/priorities</p>	<p>Updates will be reported via the Health and Overview Scrutiny Committee and Health and Wellbeing board every 6 months.</p>

<p>Reason for consideration by Wokingham Borough Wellbeing Board</p>	<p>Since <a href="#">SCF launched their vision</a> in November 2021 it has gained widespread support. It encapsulates succinctly a set of ideas, and values that have been developed with people who draw on care and support and which have been reflected in other documents over time including <a href="#">Think Local Act Personal's (TLAP) Making it Real framework</a> as well as the <a href="#">ADASS Time to Act</a>.</p> <p>The social care community in Wokingham Borough has adopted the SCF vision and we are seeking the support of Full Council to embrace this movement. This will include the adoption of our locally developed SCF Charter and a political commitment to work together with people who use adult social care and family carers, to achieve positive outcomes for our communities.</p> <p>A report was presented for consideration at the <a href="#">Health Overview and Scrutiny Committee on Monday, 6 November 2023</a>, and a further report will be presented to Full Council in January 2024.</p>
--	--

	Our existing ASC strategy and priorities will remain in place, but we will reframe our strategic vision and incorporate the new ideas of SCF.
What (if any) public engagement has been carried out?	<p>We have consulted with the SCF board to produce the Charter and attached document. This group, involves people working across Adult Social Care and people who draw on social care support. The purpose of the board is to contribute towards supporting an equal life for all people.</p> <p>The Charter was also consulted on at a public event in July 2023, at which 100 people attended. <a href="#">Looking to the future of adult social care in Wokingham Borough   Wokingham</a></p> <p>The aim when producing these documents has been to ensure that they are accessible and meaningful to anybody who reads it.</p>
State the financial implications of the decision	Along with most local authorities in the country, the Council are facing an extremely challenging financial position caused by high inflation, increasing resident needs and years of continuous low funding from Government. Whilst ambitious, we hope to achieve SCF through using existing money in ways that make a difference.

## RECOMMENDATIONS

That the Health and Wellbeing Board:

- 1) Note our commitment to the SCF vision
- 2) Consider how the Health and Wellbeing board may best support the delivery of the SCF vision and work with people who use adult social care and family carers to achieve positive outcomes for our community
- 3) For members of the HWB board to attend briefings (dates TBC)
- 4) Note the principles included within Wokingham Borough Council's SCF Charter

## SUMMARY OF REPORT

Adult Social Care (ASC) is an important issue for everyone, regardless of age, health or personal circumstances. The ASC Strategy was approved by Executive in 2020 and sets out our vision and the strategic priorities and identifies the actions we want to achieve in the context of challenging budgetary and demographic pressures.

People experience social care unequally, with some groups more likely to receive poorer care. The social care system has lacked adequate investment for decades., COVID-19 has highlighted the extent of this, during lockdown it was recognised that many people who use services live in permanent lockdowns and experience inequality every day. SCF is about ensuring that everyone is included and change only happens in people's

lives with their say. We believe that a cross party approach to doing this can have the best outcomes for residents and ensure continuity and stability.

By adopting the SCF movement, Wokingham Borough has joined more than 40 other Local Authorities who are a part of this innovative approach to social care. Since SCF launched their vision in November 2021 it has gained widespread support. It encapsulates succinctly a set of ideas, and values that have been developed with people who draw on care and support and which have been reflected in other documents over time including [Think Local Act Personal's \(TLAP\) Making it Real framework](#) as well as the [ADASS Time to Act](#).

Our existing ASC strategy and priorities will remain in place, but we will reframe our strategic vision and incorporate the new ideas of SCF and call for big change in how public service resources are used alongside citizens and community assets.

The SCF movement has suggested 5 key changes to unlock an equal life and identify and challenge these unacceptable inequalities and to reduce them. These are:

- Communities where everyone belongs
- Living in the place we call home
- Leading the lives we want to live
- More resources, better used
- Sharing power as equals

To support this cultural shift in Wokingham Borough, we have developed a Charter that we believe will help embed the culture of SCF movement within the practices of Wokingham Borough Council Adult Social Care and within our partner organisations. Our Charter focuses on what matters to the people of Wokingham Borough and includes the core principles that enable us to deliver the SCF vision. The Charter has been developed in partnership with our SCF Group and the wider community.

The aim when producing our Charter has been to ensure that it is accessible and meaningful to anybody who reads it. The Charter will be available for signing and downloading on our website by local residents, elected members, providers of social care, statutory and voluntary partner organisations. The Charter will be presented to Full Council in January 2024.

Our Charter therefore focuses on what matters to the people of Wokingham Borough and summarises the values we must all work towards to make the vision a reality and bring about positive change. These are:

- Working together as equal partners
- Treating everyone with honesty and fairness
- Respecting the diversity of people
- Including and listening to everyone
- Building on people's strengths, their networks, and resources from the local community
- Using clear, kind and easy to understand communication and information
- Being open when things are difficult to do, and work out what we can do together
- Focusing our efforts on what is important to people and make sure it is happening

Adopting the SCF vision will require commitment from across the Council including transport, housing and planning. In addition, our partners in health, independent care providers and the voluntary, community and faith sectors are fundamental in this journey

to work together and do social care differently to put control into the hands of people and communities, connecting people and resources together.

We hope that through the SCF initiative we can all unite and work together to do the best we can so that everyone can enjoy a 'gloriously ordinary life.

### **Analysis of Issues, including any financial implications**

The SCF vision advocates for a way of working that ensures the care and support that we want for ourselves and our families meets our needs and is fit for the future we want. As this sits alongside our ASC Strategy 2020-25 there are no known risks associated with this decision (legal; financial; or otherwise). The SCF Vision will continue to be delivered within the ASC MTFP financial envelope. Along with most local authorities in the country, WBC are facing an extremely challenging financial position caused by high inflation, increasing resident needs and years of continuous low funding from Government. Whilst ambitious, we hope to achieve SCF through using existing money in ways that make a difference.

The themes of our Charter focus on inclusivity, treating people as equals and respecting the diversity of people. An Equalities Assessment has been completed and it is hoped that SCF will improve the lives of every resident in borough and take into account the Equality Act 2010.

SCF is expected to have a positive impact, as reflected by some of the recent successes of ASC services. Also, in its adoption of a new strategic vision that is easier for local people to understand and remember, as a result of the input of SCF Core Group.

#### **Partner Implications**

Locally we have a Core Group of partners working across ASC including people who use ASC support. The purpose of the Core Group is for stakeholders to explore their hopes for the network and contribute towards supporting an equal life for disabled and older people and to use the vision to steer local action.

Our Charter has been developed by our local Core Group and people who use services, with input from a wide range of partners, summarising how we want to deliver SCF locally. As mentioned above, the Charter states the values stakeholders must all work towards to make SCF a reality. This is the beginning of our journey and our Core Group meets monthly. It is proposed that our Core Group will provide an annual progress review for the Health Overview and Scrutiny Committee and Full Council, against the core principles of SCF.

Our SCF Charter will be hosted on the Council's website, all partners will be invited to sign up to this and help embed this into their work.

#### **Reasons for considering the report in Part 2**

N/A

#### **List of Background Papers**

1. SCF briefing - Our plans for a better future
2. Equality Impact Assessment
