

TITLE	Corporate Risk Register refresh – August 2013
FOR CONSIDERATION BY	Audit Committee on 25 September 2013
WARD	None Specific
STRATEGIC DIRECTOR	Julie Holland, Interim Head of Business Assurance and Democratic Services

OUTCOME / BENEFITS TO THE COMMUNITY

Enterprise Risk Management (ERM) provides for robust and transparent decision making. Effective ERM is therefore an integral part of the council's control environment and helps demonstrate the effective use of resources and sound governance. The council's Corporate Risk Register (CRR) demonstrates that the council is pro-actively identifying and managing its significant business risks.

RECOMMENDATION

Audit Committee is asked to consider and note the risks and mitigating actions of the Council's corporate risks as detailed in the attached CRR.

This was reviewed and updated following the August Corporate Risk Register refresh process. This has been reviewed by the Corporate Leadership Team on 10 September 2013.

SUMMARY OF REPORT

As part of this CRR refresh Business Assurance has met with Strategic Directors and Service Risk Champions. As a result an update has been obtained over the control of each risk since the last refresh. This report summarises those changes and the refreshed CRR is presented to CLT for your consideration and comment. The updated CRR is available as Appendix A.

Background

The roles and responsibilities of Members and Officers with respect to Risk Management are detailed in the Council's Enterprise Risk Management Policy (ERMP) which was approved by the Audit Committee on 28 November 2012. The ERMP states that CLT is responsible for identifying and managing the Council's risks and opportunities, and for setting an example to staff. CLT is also responsible for identifying, analysing and profiling high-level strategic and cross-cutting risks on a regular basis.

The Audit Committee is required to seek confirmation that the Council's strategic risks are being proactively managed. Strategic risks are essentially those risks that might occur and could prevent the Council from achieving its objectives as detailed in its Vision, Priorities and Corporate Plan.

Analysis of Issues

The following risks has been revised by the relevant Strategic Director to reflect recent

changes/ developments:

- One **new** risk has been added to the register;
- This being Risk 27 – which is the risk of failure of the Health and Social Care system due to the combination of increased demand due to demographic pressure, coupled with actual reductions in health and social care budgets leading to failure of either or both local health and social care systems.
- Risk 2 – Has been **updated** giving greater clarity following delivery of 13/14 and 14/15 School places. Leading to more emphasis on the second element of the risk around financial pressure on the DSG created by Free Schools.
- Risk 25 – Has been **returned** to the risk register. The Decision Making Review Party has been set up in order to look into the system of governance for Members. The Working Party has now completed its preliminary work and will be consulting on a number of proposals, including a return to the Committee system. Significant work will be required if change is to take effect. The consequences of these changes are deemed to be significant. During the transition, there could be organisational confusion about how decisions are made, the main focus is to mitigate the risk of loss of clarity around decision making during the transition.
- There was another proposed new risk to the register, which is the risk of the Council having financial responsibility for adult social care funding due to a cap for self-funding of £72k being introduced in 2016, as part of the Care Reform Bill. CLT have decided that this is overall a financial risk and will be covered with other financial risks in the Medium Term Financial Plan.

The Executive Leads on the register have been updated following the announcement of the new Executive Members. We have also updated the links to corporate/service objectives following the adoption of the new corporate vision and priorities.

FINANCIAL IMPLICATIONS OF THE RECOMMENDATION

	How much will it Cost/ (Save)	Is there sufficient funding – if not quantify the Shortfall	Revenue or Capital?
Current Financial Year (Year 1)	N/A	N/A	N/A
Next Financial Year (Year 2)	N/A	N/A	N/A
Following Financial Year (Year 3)	N/A	N/A	N/A

Cross-Council Implications (how does this decision impact on other Council services and priorities?)

A risk is an unexpected event or action that can adversely affect the Council's ability to achieve its objectives and successfully execute its strategies. Risk Management is about managing opportunities and threats to objectives. Therefore good risk management will assist the Council in delivering its services and achieving its priorities.

(2)	<p>Rising local population and demographic change results in a risk to ensuring sufficient places near parents' homes. There are sufficient places in 13/14 and 14/15. Thereafter, there are two risks:</p> <p>(1) the possibility of free schools outside the strategic planning framework;</p> <p>(2) the availability of infrastructure contributions from developers to meet basic need requirements. The cost of new academies and possibly free schools on the DSG is high in comparison to our own schools and places a risk to the security of funding to other schools and central services from the DSG.</p> <p><i>Risk of inadequate infrastructure and capacity, along with the associated effect on learning and achievement.</i></p> <p><i>Risk of excess provision created by the creation of academies and free schools.</i></p>	<p>Inefficient places, reputation damage, quality of education affected, resources lost due to council development of free schools/academies, infrastructure affected, perceived as less attractive place.</p>	Officer Lead	Executive Lead	H	Ongoing work with communities to promote Free Schools appropriately to fall within our strategic planning framework.

(7)	<p>WBC has a duty to care for the needs of, and to provide safeguarding services for the most vulnerable children and young people in the Borough. The changing economic circumstance needs careful consideration and monitoring in order to ensure that there is minimal impact on the management of this risk.</p> <p><i>A failure to follow procedures, equip the workforce with the right skills and training, or to deliver appropriate resources or services in a timely position raises a risk of serious or significant harm to a vulnerable child or young person with whom the council is working.</i></p>	<p>Avoidable harm to a vulnerable child, damage to reputation, possible external intervention, litigation, low staff morale, recruitment and retention problems, removal of senior managers and impact on continuity of delivery for children and families, impact of being judged inadequate by Ofsted could lead to statutory / government intervention.</p>	Officer Lead	Executive Lead	H	External provider commissioned in relation to recruitment and retention to ensure resilience.

(8)	WBC has a duty to care for the needs of, and to provide safeguarding services for the most vulnerable adults in the Borough. The impacts of future funding reductions (and consequent holding prices paid to providers) together with restructure from the establishment of the People Hub and Renaissance Review needs careful consideration to ensure the likelihood of this risk is not increased. The impact of wider corporate changes on the council's safeguarding duties also needs due consideration and oversight.	Damage to reputation, possible external intervention, litigation, low staff morale, recruitment and retention problems, removal of senior managers.	Officer Lead	Executive Lead	H	A recruitment and retention market review is in place for Social Work and Occupational Therapist posts across the pathway.

	<i>There is a risk of failure to safeguard vulnerable adults, either through systematic failure of duty of care, or an individual failure leading to the serious harm or death of a vulnerable adult.</i>					
(12)	Programmed and proactive investment and maintenance in infrastructure has been deferred and affected by the current financial situation. This is potentially a risk with regard to highways infrastructure. Furthermore, planned infrastructure works will need to be monitored carefully including upcoming work on bridge parapets.	Impact on transport infrastructure, possible health and safety issues, traffic Problems, adverse publicity / reputation damage, serious injuries or death's, significant financial cost, financial impact on other areas of council.	Officer Lead	Executive Lead	H	Works planned for Loddon Bridge.
			MM	KB		Work planned for next high speed road risk, the A4 and then A33, dependent on capital budget allocations.

(14)	The council is currently undergoing a number of large asset based projects such as school re-builds, the town centre regeneration and meeting our housing and infrastructure needs. This has put pressure on the council's capital funding. Furthermore the council is subject to a number of external constraints when disposing of capital assets, adding to the financial pressures and ability to effectively plan capital resources.	Shortage of capital resources, schemes delayed, scope of schemes reduced, changed attitude with partners, credibility affected, delivering less, loss of fee income, impact of funding on service and posts.	GE	AP	H	A project planned to make best use of Council's assets.
	Risk Appetite		Direction of Travel	L		—
	<i>Risk that the council fails to deliver key objectives through insufficient project resources.</i>					
(15)	Proposed changes to council service delivery, policies or contracts become subject to Judicial Review by interest groups such as parish councils, county councils, residents groups, developers and landowners etc.	The degree of influence that the council can exert over corporate proposals is reduced leading to poor quality & undesirable outcomes, financial cost and staff time required to defend actions becomes unsustainable, reputational damage, delays in the implementation of change.	AC	DL	H	Ensure that detailed legislation compliance checklists are embedded as part of project plans. Also through the development of planning policy.
	Risk Appetite		Direction of Travel	L		—
	<i>Proposed changes to services, policies or contracts are quashed or set aside which reduces the influence the council can exert over corporately important projects.</i>

(18)	Many files and documents (data) of a confidential and sensitive nature are being managed and transferred in traditional paper format by staff prior to the full roll-out of an Electronic Document and Records Management System (EDRMS). With a daily change of work stations for many staff, the likelihood of losing or mislaying confidential or sensitive data is significantly increased. Loss of such data may result in significant fines imposed by the Information Commissioner and lead to reputational damage.	Imposition of a substantial fine, reputational damage/ bad media coverage, breach of contract and payment of damages, loss of future business, increased number of complaints, loss of trust from partner organisations/ contractors.	Officer Lead	Executive Lead	M	Wokingham Secure Mail is scheduled to be available to the whole organisation by the end of August. This has been piloted by the Information Governance Group.
	GE		PJ	Document marking scheme scheduled to go live at the beginning of September.		
	Risk Appetite		Direction of Travel	Undergoing central government audit to ensure continued connection to the Public Service Network.		
	L		—	Appointment of an Information Security Officer to be advertised August / September 2013.		
	<i>Loss of confidential or sensitive data, leading to a significant fine and reputational damage for the council, with a potentially damaging impact on the resident/ customer to which the information relates.</i>				Training for staff on document / information handling and basic information security practice.	
(19)	The council's Core Strategy makes provision for housing growth in the Strategic Development locations accompanied by the provision of infrastructure. Appeal decisions and the introduction of Community Infrastructure Levy (CIL) challenges the approach of the core strategy which set to ensure this infrastructure would be provided by the developers. The council could be required to provide for more infrastructure than intended and could be subject to more appeals.	The council will need to engage with other agencies to access other forms of funding and may face financial pressure to contribute towards provision beyond that which it has already planned to do , forward funding of feasibility and costing work, capital resources being directed towards infrastructure delivery.	Officer Lead	Executive Lead	H	Progress the adoption of the Community Infrastructure Levy scheme and charging schedule(s) for the Borough.
	HT		KB	Discussions with agencies such as the HCA and LEP to secure contributions to infrastructure feasibility work and provision.		
	Risk Appetite		Direction of Travel	Implementation of a joined up capital bid process through the new governance structure for infrastructure delivery.		
	H		—			
	<i>Negotiations will be complex and the risk exists that not all of the infrastructure requested will be provided.</i>

(20)	There needs to be clarity and agreement on how the vision and priorities will be interpreted and delivered. The vision and priorities need to be articulated through the corporate and service plans. The service and resource planning is being redesigned so it will align to the vision and priorities of the council enabling us to deliver on our priorities.	Organisational dissonance, disharmony across organisation, lack of clarity, different objectives / targets, delivery affected, fall behind neighbours, non-compliance with legislation.	Officer Lead	Executive Lead	L	Service planning framework is being developed for 2014/15 building on the 2013/14 framework. (01/04/2014).

(25)	Following the work of the Governance Working Party, the Council will be consulting on a number of proposed changes to the system of Governance. The risk comes during the period of transition from the current system to the new one.	During the transition, there could be organisational confusion about how decisions are made, budgetary - possible extra financial and resource costs of more meetings which exceeds budget, complaints and Ombudsman investigations, judicial review, reputational damage.	Officer Lead	Executive Lead	L	A clear, detailed project plan required, with dates by which the new Governance arrangements are implemented.
	SNW		DL	Clarity over the responsibilities to update the Constitution to reflect the new arrangements (e.g. meeting names/job titles etc.)		
	Risk Appetite		Direction of Travel	Articles on Inform, Grapevine etc. to clarify the transitional arrangements to staff.

(26)	Uncertainty engendered by the Change and Improvement process relating to potential changes in service delivery. The potential changes being; modified delivery, reduced service or no service provision. The transition to new delivery will require capacity to implement and effectively manage the changed provision including potential reputational damage.	Loss of people and organisational intelligence, reputational damage, negative impact on existing Service Delivery, failure to implement successful changes to service delivery.	Officer Lead	Executive Lead	M	CLT acting now in order to reduce impact by recruiting in order to reduce the volume of leavers in September 2013.
