Joint Strategic Needs Assessment 2013-14

Mike Wooldridge

Senior Manager – Improvement and Performance

WOKINGHAM BOROUGH COUNCIL

Background

- Included in statutory regulation since 2007 (Local Government and Public Involvement in Health Act , 2007)
- The 4th Wokingham JSNA was published in 2012/2013
- The Health and Social Act (2012) requires all Health & Wellbeing Board's working through local authorities and CCG's to produce a JSNA of the health and wellbeing of their local community.
- The JSNAs across Berkshire are being 'refreshed' in 2013

Previous feedback

Strengths

- Provides a comprehensive data source
- Provides clear overarching priorities
- Provides basis to commission services
- Provides information for the Health & Wellbeing Board

Areas to improve

- Cumbersome document
- Not “user” friendly
- Clinically focussed
- Confusing data (relevance of data to local area)
- Unable to “tell the local story” – snap shot of needs

Vision

With the transfer of Public Health into Local Authority presents a new opportunity to create a new style JSNA.

The vision is to scope a JSNA that has the ability to:

- *Be accessible and web based*
- *Provide relevant, easy to disseminate data*
- *Tell the local story*
- *Use Ward data as a tool to plan for localised services*
- *Provide key stakeholders with data for commissioning intentions.*

Proposal for redesign

To be accessible and web based:

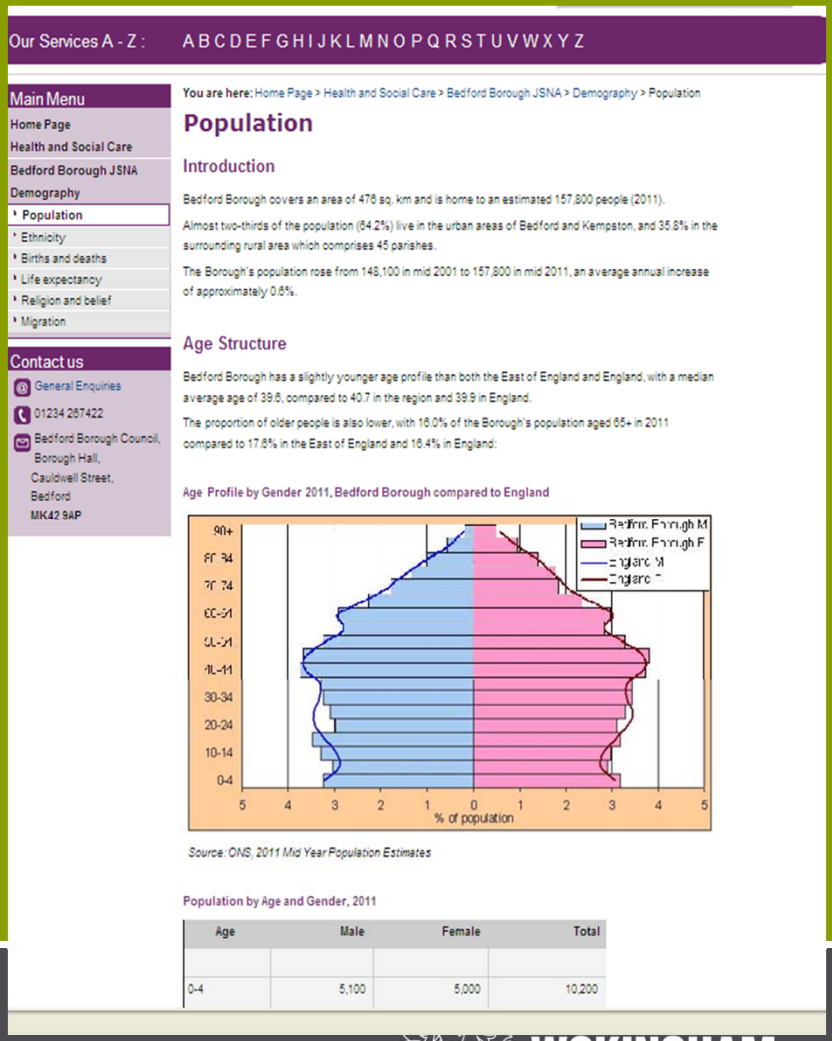
- Information which is three clicks from a front web page
- Clear and “User” friendly
- Simple navigation to access information and data

WOKINGHAM BOROUGH COUNCIL

Proposal for redesign

Provides relevant, easy to disseminate data:

- Clear data tables
- A range of options of viewing data i.e. script, graphs, tables, pictures



WOKINGHAM BOROUGH COUNCIL

Proposal for redesign

To have the facility to tell the local story:

- Easy to read and understand
- Ability to share the local ward picture
- Evidenced based and outcome focussed
- Provides a snap shot of current activities and future plans

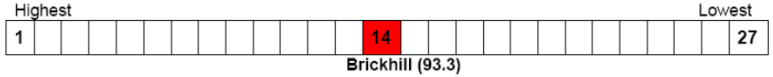
- Promotes Ward conversations based on evidence of needs
- Provides the facility to utilise Ward Data in promoting and planning localised services

Health and Wellbeing

Limiting Long Term Illness – Age Standardised Ratio (2001)

Limiting Long Term Illness – Age Standardised Ratio (2001). Ward Comparison



Brickhill (93.3)

Source: Based on 2001 Census, ONS, Table CAS016. Analysis by Community Intelligence Team, Bedford Borough. Household residents only. The ratio is calculated by standardising for age differences between wards, with Bedford Borough having a value of 100. A value under 100 means that the level of LLTI is less than expected by the age profile of the ward, and a value above 100 means LLTI is greater than expected.

Social Service Open Cases (2010)

Aged 18+	Brickhill		Bedford Borough
	Number	Per 1000 population	Per 1000 population
Number of Social Services Open Cases	212	30.8	31.5
Open Cases excluding those in Nursing / Residential Care	186	27.0	26.3

WOKINGHAM BOROUGH COUNCIL

Proposal for redesign

Provides key stakeholders with data for commissioning intentions:

- To access detailed reports on specific issues, conditions and ward/area data
- Provide comparison data
- Provide a snap shot of activities and gaps in provision
