

# Wokingham PNA

Update, presentation of early findings,  
seek views on SDL impact  
direction on consultation process

# Commissioners

- Four levels at which services are commissioned:
- NHS England
  - Sets legal framework for system, including regulations for pharmacy
  - Secures funding from HM Treasury
  - Determines NHS reimbursement price of medicines & appliances
- NHS England area team –
  - securing continuously improving quality from the services commissioned, including community pharmacy enhanced services
- Local authority –
  - Provision of public health enhanced services in line with local health and well being strategy
- CCGs -
  - enhanced services in line with local needs and CCG strategy

- 
- What is Pharmaceutical Needs Assessment (PNA)?
  - *PNA is the statement for the needs of pharmaceutical services of the population in a specific area. It sets out a statement of the pharmaceutical services which are currently provided, together with when and where these are available to a given population.*
  - From 1 April 2013 every Health and Wellbeing Board (HWB) in England has a statutory responsibility to keep an up to date statement of the PNA.

# What it does ?

- To provide a clear picture of community pharmacy services currently provided
- To provide a good understanding of population needs and where pharmacy services could assist in improving health and well being and reducing inequalities
- To deliver a process of consultation with local stakeholders and the public to agree priorities
- An assessment of existing pharmaceutical services and recommendations to address any identified gaps
- It will be used by NHS England when making decisions on applications to open new pharmacies and dispensing appliance contractor premises; or applications from current pharmaceutical providers to change their existing regulatory requirements.
- It will inform interested parties of the pharmaceutical needs in Berkshire and enable work to plan, develop and deliver pharmaceutical services for the population.
- It will influence commissioning decisions by local commissioning bodies including local authorities (public health services from community pharmacies),

# Process

- Pharmacy survey - complete - analysis underway

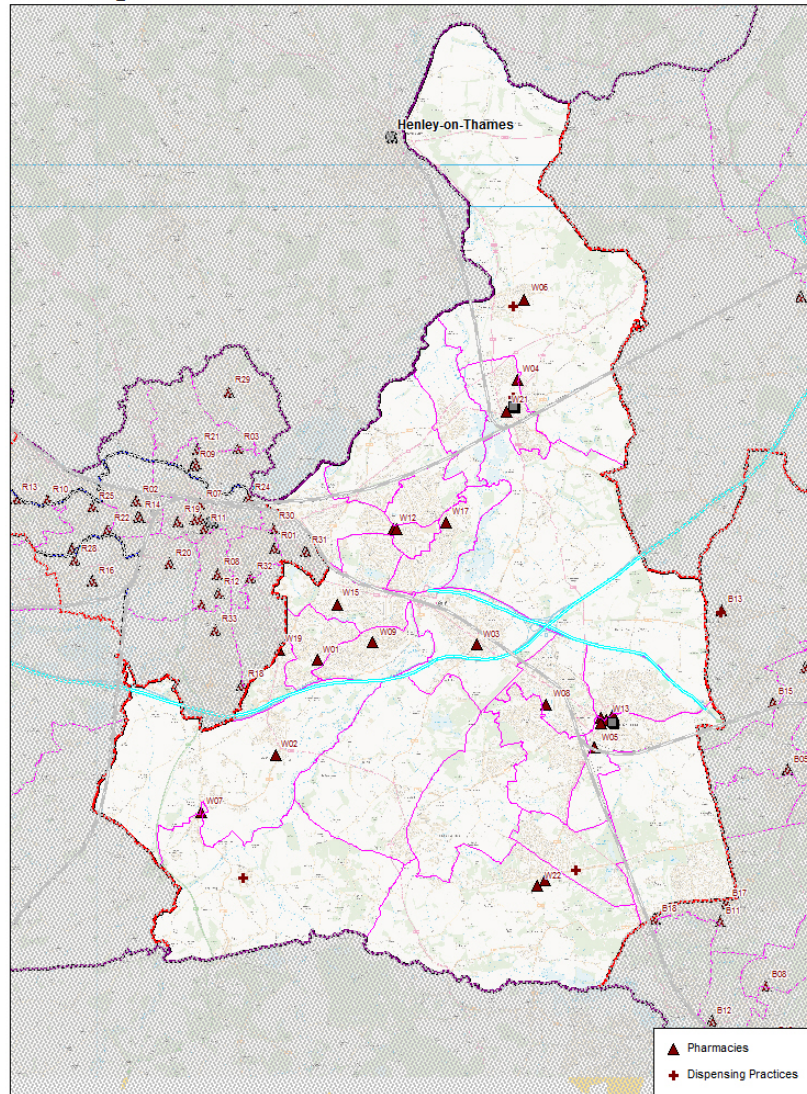

Web based

- User survey - complete - analysis underway - initial results presented

Paper and web based survey

## Wokingham - Pharmaceutical Needs Assessment

# Initial findings

- Pharmacy - 18/24 responded
- Users - 1863 responses
- 12% Wokingham
- 3% internet pharmacy

2

Frequency of Use of pharmacy

## Access to pharmacy

- 84% less than 15 mins

8

## Pattern of use of pharmacy

### Services requested

# Needs

- Smoking
- Long term conditions  
Cardiovascular disease Chronic Obstructive Pulmonary Disease (COPD)
- Mental Health  
Anxiety and depression Dementia CAMHS
- Older people  
Winter excess death  
Flu Immunisations  
Falls
- Carer support
- Lifestyle advice

# Recommendations

- Good coverage - no areas without access within 20mins - no recommendation for new pharmacies
- Housing - within 20 mins but capacity
- Suggestion - visit pharmacies in vicinity
- Needs - Health checks
- Future benefits - health needs

# Consultation process

- Consultation doc - HWB board
- Meetings ? Within Council
- CCG
- Public
