[^0]
the boarding event.
230 - HB's usually take new dogs on a trial basis following a thorough interview.
231 - My dog went for a trial to assess her suitability; I know this is standard practise.
$235(\mathrm{HB})$ - Always have intro meetings with new
boarders. Animal \& owner come to meet my dogs. If I
feel a dog from another household may be difficult t arrange for them to meet and play on a neutral site. 241 - Responsible dog owners visit well in advance and ask many questions about how the dog will be looked after. This is our responsibility. All HB's l've used have the dog on trial to see how it interacts / behaves.
242 - By all means introduce client dog to HB in advance but I don't see how you can get all the dogs together in advance. The dogs really aren't going to care!
245 - Agree. Boarding and resident dogs should have the chance to meet and familiarise prior to boarding. 247 - Put in some broad rules but leave to discretion of licensee.
253(HB) - Clients are well aware we have resident dogs \& cats. Clients visit us with their dog to meet, familiarise with residents and go through my comprehensive questionnaire.
255 - Familiarisation is sensible.

water
199 - shared drinking bowls perfectly satisfactory 201-not necessary, dogs are willing to share. Only exception should be for health reasons.
202-no need providing bowls are clean, water is plentiful and not shared with known infectious individuals.
206 - No. Dogs often drink out of puddles.
218 - You can ask but it's completely unrealistic to ensure dogs drink only from their own bowls.
225 - Absolutely not!"
$226(\mathrm{HB})$ - Separate bowls should be supplied although dogs will drink out of each others.
230 - No. Shared bowls with water changed $2 x /$ day is adequate.
$235(\mathrm{HB})$ - Impossible to police, especially in summer with so many water bowls dotted around the garden. Each dog has its own feeding bowl which is washed after every meal.
242 - How do you propose telling a dog it has its own water bowl? They're not fussed...
245 - Yes, separate feeding and water bowls.
247 - No. Not practical, dogs drink from the nearest available bowl, they don't care whose it is!
250 - Should be provided but not mandatory - dogs drink from any bowl or puddles given the chance. $251(\mathrm{HB})$ - Demonstrates the utter lack of aptitude with which this proposal has been constructed.
252(HB) - Ridiculous. Dogs constantly exchange saliva therefore acceptable for them to share drinking facilities. 255 - Not necessary to have individual water bowls but

|  |  | should have separate food bowls that are cleaned <br> between meals. |  |  |

|  | Q11.2 Is list of vaccinations correct? | 1,4,9,30,34,35,43,50, 57/63,58,70,74,89, 106, 111, 114, 115, 119, 121, 124, 126, 146, 164+165 170, 173, 185, 189, 199 201,202, 206, 225, 226 (HB), 230, 235(HB), 245, 251(HB), 252(HB), 253(HB) | 1-include canine influenza?, kennel cough?, proof of immunity within last 3mths <br> 4-agree proof of vaccination but does not need to be kept on site <br> 9 -agree <br> 34-only want routine vaccinations not non standard ones <br> 35 -correct, but possibly exclude kennel cough <br> 50-include kennel cough <br> $57 / 63$ - do not agree that vacinations should be a <br> requirement <br> 58-? Refer to vet <br> 70-agree <br> 74-up to boarder to decide | 23 | 17 | 11 |

[^1]| If owner does not vaccinate can they board animal? |  | card from vet. <br> 1-no, unless immunity proven <br> 4-need to check time lag of vaccinations <br> 30 -yes, up to owner if want dog vaccinated <br> 34 -if routine ones reasonable to refuse animal to be <br> boarded for safety of others <br> 35-no <br> 43-no-provide boarder with list of vaccinations to be kept <br> on file-and have brief history of pets medical history and <br> veterinary practice <br> 50-no <br> $57 / 63$-it is reasonable for the dog sitter to ask whether a dog is vaccinated but whether they decide to accept the dog is up to the boarder <br> 173 - clearly yes <br> 199 - up to sitter |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Q11.3 should licensee obtain owners permission to seek vet treatment before animal boarded? | $\begin{aligned} & \hline 1,4,34,43,50,58,68,70,74 \\ & 89,106,114,119,121, \\ & 124,126,146,164+165 \\ & 173,185,189,199 \\ & 201,202,206,225, \\ & 226(\mathrm{HB}), 230,235(\mathrm{HB}), \\ & 245,253(\mathrm{HB}), 255, \end{aligned}$ | 1-agree-be included in registration/acceptance details form <br> 4-agree-be included in initial contract <br> 34 -yes but only in emergency and not possible to contact owner <br> 43 -every effort should be made to contact owner but in emergency welfare of pet paramount <br> 50-yes <br> 58 -yes to protect the licencee <br> 68 -should be recommendation only <br> 70-agree <br> 74-probably best to get it in writing <br> 89 -owner should inform their vet that their animal is being | 31 | 2 | 1 |

[^0]:    138 - written consent way over top
    146 - unreasonable. Dogs familiarised by HB away from house before entering house together, does not require set of regulations
    164+165 - how long for trial familiarisation? Should include all animals to be boarded, not just resident dogs. Irrelevant if 4.2 unchanged
    166 - do not agree "only dogs from same household may be boarded at any one time", dogs benefit from pack situation provided controlled by someone who loves animals \& understands canine psychology. Do agree "dogs must not be boarded with any cat unless normally live together in same household", dogs \& cats do not mix naturally together. Consider revision of 4.2 170 - most already trial this - do we need to add paperwork to formalise?
    185 - disagree to written consent
    187 - positive for dogs to socialise, will reduce availability of service especially short \& last minute bookings, increase prices
    189 - would always get consent, do trial stays
    199 - owner \& sitter to agree any familiarisation 201-Don't see it as a requirement, although some people may prefer it. Could only work with residing dogs.
    202-should be encouraged prior to boarding, in a neutral environment.
    206 - Yes.
    225 - Yes. Possibly initial assessment by licensees? 226(HB) - Familiarisation should take place prior to

[^1]:    199 - is photocopy sufficient?
    201-need to refer to a vet
    202 - yes, absolutely all animals should be vaccinated prior to boarding. Advisable to include intranasal kennel cough vaccine as this disease is associated with mixed boarding.
    206 - suggest kennel cough, yes to reject.
    225 - As far as I'm aware. Responsible licensees should already be familiar with canine diseases.
    226(HB) - Yes correct. An unvaccinated dog should not be boarded.

    230 - Vet should confirm. Rejected vaccinations should be a matter for HB and owner to decide.
    $235(H B)$ - Not sure. Initial thought is 'no' but it won't harm my dogs as they are vaccinated. If all other dogs are up to date what would be the harm? However if two were not vaccinated I would refuse one. A record of proof on site is a good idea.
    245 - By stating 'other relevant diseases' allows the list to be detailed but not exhaustive. Any dog not vaccinated should not be boarded.
    251 - Find it alarming that you are asking if this list is correct.
    $2525(\mathrm{HB})$ - an owner who will not inoculate will be unable to board.
    253(HB) - If owner cannot provide vaccination evidence I doubt an HB would take them. Should be legislated.
    255 - Was a qualified vet consulted? HB should only house fully vaccinated animals evidenced by vaccination
