

Crossing the Bridges

Bringing together schools and places of worship

With funding from the Westhill/NASACRE Award, the six Berkshire SACREs (Standing Advisory Councils on Religious Education) are proactively facilitating a project which enables children and young people to encounter faith and belief communities in their places of worship.

Dialogue and interactive teaching materials, led by enthusiastic teachers, enable better understanding of their own and others' beliefs and develop respect and empathy, in a safe environment for asking big questions.

This project is a great example of communities working together to dispel prejudice through encounters with real human beings and greater understanding of their beliefs.
