<b>Development Management Ref No</b>	<b>No weeks on day of committee</b>	<b>Parish</b>	<b>Ward</b>	<b>Listed by:</b>
170686	Planning Performance Agreement	Barkham, Finchampstead, Swallowfield, Arborfield	Barkham, Finchampstead South, Swallowfield, Arborfield	N/A SDL Major Development

<b>Applicant</b>	Redrow Homes Limited C/O Pegasus Group		
<b>Location</b>	Arborfield Garrison and adjoining land	<b>Postcode</b>	RG2 9LN
<b>Proposal</b>	Reserved Matters application pursuant to Outline Planning Consent O/2014/2280 for the erection of 179 dwellings with access from the Nine Mile Ride Extension (NMRE), with associated internal access roads, paths, circulation areas, car parking including garages, landscaping, open space and associated infrastructure and works. (Parcels H, I and J)		
<b>Type</b>	Reserved Matters		
<b>PS Category</b>	7		
<b>Officer</b>	Alex Thwaites		

**FOR CONSIDERATION BY** Planning Committee on 12/07/17  
**REPORT PREPARED BY** Head of Development Management and Regulatory Services

## SUMMARY

This application relates to land within the 'Southern Gateway' character area of the Outline planning consent granted under planning application O/2014/2280 which established the principle of access to the site together with development parameters. The Parcels (H-J) are located to the east of the A327, south of the Nine Mile Ride Extension (approved under 153336 and open) and west of Sheerlands Road. The development area is opposite the third phase of development on the former Garrison site (Parcels A-G) and there are no existing neighbouring properties within close proximity.

The principle of development in this location has been established through its allocation by policy CP18 of the Core Strategy and through the Spatial Framework Plan within the Arborfield Garrison Supplementary Planning Document together with the outline planning permission.

The overarching vision of the SDL is to provide a co-ordinated approach to the delivery of infrastructure and services ensuring that developments are of a high quality and are sustainable. This includes the provision of schools, community facilities, good quality open space and appropriate local transport and links. The outline application for Arborfield Garrison was supported by an Infrastructure Delivery Plan (IDP) which established how the necessary infrastructure could be delivered. A S106 legal agreement secured the proportion of infrastructure attributable to the development at Arborfield Garrison and triggers for its delivery.

This current application is for reserved matters application for 179 dwellings, which represents phase four of the Arborfield Garrison development. The application seeks permission for the details of appearance, landscaping, layout and scale only. Conditions

applications have also been submitted in parallel to the reserved matters which seek approval for other detailed matters such as flooding and drainage.

The application is before the Planning Committee as it relates to major development that is recommended for approval. It is considered that the development would be a sustainable development that represents the fourth stage of the Arborfield Garrison development and would not have a significant detrimental impact on the character of the area or on existing residents.

The site levels vary within the parcels, however, as a broad overview the site gently slopes upwards towards the A327. The development site is split into sections by existing vegetation classified as important hedgerows and by a pipeline which dissects the site. The masterplan has been designed in order to retain this feature and incorporate it into an area of open space which also includes cycle and pedestrian links between the parcels. The Sustainable Drainage Systems (SUDS) have been designed as part of the site layout and there is sufficient capacity within the site to accommodate the development.

The development is intrinsically linked with the Nine Mile Ride Extension (NMRE) which runs along the north boundary of the development parcel and prescribes the access into the site in three locations. The NMRE includes its own SUDs features, linear park and bridleway that all link into Parcels H-J as well as the wider Strategic Development Location.

The proposal would provide for an adequate level of amenity for the future occupants of the dwellings together with an acceptable impact on ecology, traffic, highway safety and flood risk in addition to contributing to the delivery of infrastructure provided jointly by the wider SDL.

In design terms, the proposal meets all the council's standards, in particular internal space, garden depths and parking standards. Equally, the proposals broadly follow the parameters set out in the outline application and the development comprises of generally lower density residential housing, primarily two storeys in height with some three storey buildings in key locations. The design of the units which appear more traditional in appearance will introduce a new character area to the SDL development as well as being compliant with Wokingham Borough Council policies.

The proposals are considered to be acceptable and therefore it is recommended that Reserved Matters are approved subject to conditions outlined below.

#### **PLANNING STATUS**

- Strategic Development Location (SDL)
- Modest Development Location
- Countryside
- Thames Basin Heaths Special Protection Area 5km – 7km Zone
- Site of Special Scientific Interest 500m Buffer - Longmoor Bog
- Affordable Housing Thresholds
- Farnborough Aerodrome Safeguarding Consultation Zone
- Potentially Contaminated Land - Sewage Works (Disused)
- TPOs Served
- Bat Roost

## RECOMMENDATION

**APPROVE RESERVED MATTERS** subject to the following conditions:

### 1. Outline Application Compliance

Nothing herein contained shall be deemed to affect or vary the conditions imposed by planning permission O/2014/2280 dated 02/04/2015 which conditions shall remain in full force and effect save in so far as they are expressly affected or varied by this permission.

### 2. Plans

Approved plans – details to be submitted as part of members update (awaiting revised / updated plans)

*Reason: For the avoidance of doubt and to ensure that the development is carried out in accordance with the application form and associated details hereby approved.*

### 3. Landscape Maintenance and Management

Prior to the first occupation of the development a landscape maintenance and management plan, including long term design objectives, management responsibilities, timescales and maintenance schedules for all landscape areas, other than privately owned, domestic gardens, shall be submitted to and approved in writing by the local planning authority. The landscape maintenance and management plan shall be carried out as approved unless otherwise agreed in writing by the Local Planning Authority.

*Reason: In order to ensure that provision is made to allow continuing enhancement and maintenance and management of the landscaping hereby approved. Relevant policy: Core Strategy policy CP3 and Managing Development Delivery Local Plan policies CC03 and TB21.*

### 4. Highway Construction Details

Prior to the commencement of development, full details of the construction of roads and footways, including levels, widths, construction materials, colour palette, service margin materials, depths of construction, surface water drainage and lighting shall be submitted to and approved in writing by the local planning authority. The roads and footways shall be constructed in accordance with the approved details to road base level before the development is occupied and the final wearing course will be provided within 3 months of occupation, unless otherwise agreed in writing by the local planning authority.

*Reason: To ensure that roads and footpaths are constructed to a standard that would be suitable for adoption as publicly maintainable highway, in the interests of providing a functional, accessible and safe development. Relevant policy: Core Strategy policies CP3 & CP6.*

### 5. Surfacing of Access

No building shall be occupied until the vehicular access has been surfaced with a permeable and bonded material across the entire width of the access for a distance of 10 metres measured from the carriageway edge.

*Reason: To avoid spillage of loose material onto the highway, in the interests of road safety. Relevant policy: Core Strategy policy CP6.*

### 6. Access Prior to Occupation

No building shall be occupied until the access has been constructed in accordance with the approved plans.

*Reason: In the interests of highway safety and convenience. Relevant policy: Core Strategy policies CP3 & CP6.*

### **Informatives**

1. Nothing herein contained shall be deemed to affect or vary the conditions imposed by planning permission O/2014/2280 dated 02/04/2015 which conditions shall remain in full force and effect save in so far as they are expressly affected or varied by this permission. Equally, this permission should be read in conjunction with the legal agreement under section 106 of the Town and Country Planning Act that accompanies planning permission O/2014/2280 dated 02/04/2015.
2. The applicant is advised that the Council seeks that employers or developers within the borough commit to using local labour / contractors where possible. This should include:
  - Advertisement of jobs within local recruitment agencies / job centres;
  - Recruitment and training of residents from the local area;
  - Seek tender of local suppliers or contractors for work.
3. **Work on Highway**  
The Corporate Head of Environment at the Council Offices, Shute End, Wokingham should be contacted for the approval of the access construction details before any work is carried out within the highway. This planning permission does NOT authorise the construction of such an access.
4. **Mud on Road**  
Adequate precautions shall be taken during the construction period to prevent the deposit of mud and similar debris on adjacent highways. For further information contact Corporate Head of Environment on tel: 0118 974 6302.
5. **Highway Management**  
Any works/events carried out either by, or at the behest of, the developer, whether they are located on, or affecting a prospectively maintainable highway, as defined under Section 87 of the New Roads and Street Works Act 1991, or on or affecting the public highway, shall be coordinated under the requirements of the New Roads and Street Works Act 1991 and the Traffic management Act 2004 and licensed accordingly in order to secure the expeditious movement of traffic by minimising disruption to users of the highway network in Wokingham.
6. **Utilities**  
Any such works or events commissioned by the developer and particularly those involving the connection of any utility to the site, shall be co-ordinated by them in liaison with Wokingham Borough Council's Street Works Team, (telephone 01189 746302). This must take place at least three month in advance of the works and particularly to ensure that statutory undertaker connections/supplies to the site are coordinated to take place wherever possible at the same time.
7. **Noise**  
The attention of the applicant is drawn to the requirements of Section 60 of the Control of Pollution Act 1974 in respect of the minimisation of noise on construction and demolition sites. Application, under Section 61 of the Act, for prior consent to the works, can be made to the Environmental Health and Licensing Manager.

<b>PLANNING HISTORY</b>		
SO/2010/0611	EIA scoping opinion	23/4/2010
O/2013/0600	Outline application for 2000 dwellings and supporting infrastructure.	Withdrawn 19/11/2013
O/2014/2280	<p>OUTLINE PERMISSION FOR: Demolition of buildings and phased redevelopment of Arborfield Garrison and adjoining land for: Up to 2,000 new dwellings (including up to 80 units of extra care housing). District centre comprising a foodstore up to 4,000 sqm gross with up to a further 3,500 sqm (gross) floor space within Classes A1, A2, A3, A4, A5, B1, D1 and D2 (with residential above - Class C3)), and transport interchange, village square, car parking, servicing and drop off area. Up to a further 1,500 sqm (gross) floor space within Classes D1 and D2. Neighbourhood centre to provide up to 300 sqm (gross) floor space within Classes A1, A2, A3, A4, A5, B1, D1 and D2, with parking/servicing area. Secondary school for up to 1,500 pupils (Class D1) including sports pitches, flood-lit all-weather pitch, and indoor swimming pool and parking areas. Up to three-form primary school (Class D1) with sports pitch and parking areas. Associated phased provision of: car parking; public open space including sports pitches, informal/incidental open space, children's play areas including multi-use games area (MUGA), skate park, community gardens/allotments; landscaping/buffer areas; boundary treatments; new roads, footpaths, cycleways and bridleways; sustainable urban drainage systems, including flood alleviation works.</p> <p>PART 2 - FULL PERMISSION FOR phased development of: Creation of two new areas of Suitable Alternative Natural Greenspace (SANGS) (In the north-eastern part of the application site ("Northern SANGS") and at West Court ("West Court SANGS") including car parking areas, path/walkways, fencing and associated landscaping; re-use of existing MoD gymnasium for sports/community uses/centre (Classes D1/D2; new roundabout junction to A327 Reading Road; junction improvements to Langley Common Road, Baird Road and Biggs Lane; junction improvements and new access at Biggs Lane/Princess Marina Drive;</p>	Approved 02/04/2015

	re-use and improvements to existing site accesses from Biggs Lane.	
150162	Reserved Matters application for the erection of 113 dwellings with access from Biggs Lane and Princess Marina Drive, with associated internal access road, parking, landscaping and open space, footpaths and sustainable Urban Drainage (Suds) – ‘Phase One’	Approved 26/11/2015
153336	Reserved Matters application pursuant to planning consent O/2014/2280. The application relates to the Nine Mile Ride Extension, School Access Road and A327 Roundabout. Details of access, appearance, landscaping, layout and scale to be considered.	Approved 24/03/2016
161536	Application for Reserved Matters for the erection of 127 dwellings together with access from Princess Marina Drive with associated internal access roads, landscaping, open space, footpaths and sustainable urban drainage (SUDS), relating to (parcel T) land – ‘Phase Two’	Approved 14/09/2016
161747	Application for Reserved Matters for the erection of 223 dwellings together with access from Sheerlands Road and the Nine Mile Ride Extension, with associated internal access roads, parking, landscaping, open space, footpaths, bridleways and sustainable urban drainage (SUDS), relating to Parcel A-G land – ‘Phase Three’	Approved 23/11/2016
171333	Application for approval of Reserved Matters pursuant to Outline Planning Consent O/2014/2280 for 79 dwellings with access from Biggs Lane, with associated internal access roads, parking, landscaping and open space, footpaths/cycleways, Sustainable Urban Drainage (SuDs) sub-station and gas governor (Parcel U2) – ‘Phase Five’	Pending Decision

### SUMMARY INFORMATION

#### For Residential

Site Area	6.48 ha
Existing units	MOD Use
Proposed units	179
Proposed density - dwellings/hectare	35 d/ha
Number of affordable units proposed	36 (20%) and 15% commuted sum
Previous land use	Brownfield site (MOD)
Proposed parking spaces	375 spaces (491 including garage spaces)

## CONSULTATION RESPONSES

Berks, Bucks and Oxon Wildlife Trust	No objection subject to the proposal being carried out in accordance with the submitted documents and mitigation [Officer Note: Condition 2 secures all documents and plans and the proposal must be carried out in accordance with said documents/plans]
Berkshire Archaeology	No objection.
WBC Biodiversity	No comments received at time of writing.
WBC Building Control	No comments received.
WBC Children Services	No comments received.
WBC Community Infrastructure	No comments received.
WBC Conservation Officer	No objection.
Crime Prevention Design Officer	No comments received.
WBC Drainage	No objection.
WBC Economic Sustainability Team	No objection.
WBC Education Services	No comments received.
Environment Agency	No comment.
WBC Environmental Health	No objection.
WBC Health and Wellbeing	No comments received.
WBC Highways	No objection – subject to conditions
Highways England	No objection.
Historic England	No comment.
WBC Trees & Landscape	No objection – subject to conditions
WBC Libraries	No comments received.
Natural England	No comment.
Network Rail	No comments received.
WBC LUTT (Policy)	No objection
WBC Public Rights of Way	No comments received.
Royal Berkshire Fire and Rescue	No objection – subject to provision of public mains for water supply to effectively fight fire. [Officer note: these are now covered until Building Regulations and are required to be provided]
South East Water	No comments received.
South West Train	No comments received.
Southern Gas Networks	No comments regarding this particular application, however reference to the previously approved outline – no objection.
Sport England	No comments received.
SSE Power Distribution	No comments received.
Thames Water	No objection.
WBC Waste Services	No objection.

## REPRESENTATIONS

<b>Arborfield Parish</b>	'The Parish Council has no objections to this application'
<b>Finchampstead Parish</b>	No objection.

<b>Barkham Parish</b>	No comment.
<b>Local Members</b>	No comments received.
<b>Neighbours</b>	No neighbour representation received
<b>PLANNING POLICY</b>

### **Supplementary Planning Documents**

Arborfield Garrison Strategic Development Location Supplementary Planning Document (October 2011)  
 Infrastructure Delivery and Contributions Supplementary Planning Document (October 2011)  
 Wokingham Borough Design Supplementary Planning Document (2012)  
 Wokingham Borough Affordable Housing Supplementary Planning Document (July 2013)  
 Sustainable Design and Construction Supplementary Planning Document (28 May 2010)  
 Planning Advice Note, Infrastructure Impact Mitigation, Contributions for New Development (Revised 2014)  
 Barkham Village Design Statement (re-adopted as an appendix to the Borough Design Guide SPD in May 2012)  
 Emerging Arborfield and Newland Village Design Statement (post-consultation, now being considered for adoption)

The Council's parking standards as set out within appendix 2 of the Managing Development Delivery Local Plan and referred to in para 4.38 of the Core Strategy

## **PLANNING ISSUES**

### **Principle of Development and Infrastructure Delivery**

1. The application site forms part of a larger area designated under the Wokingham Borough Core Strategy as the Arborfield Garrison Strategic Development Location (SDL).
2. Wokingham Borough Core Strategy policy CP17 establishes a requirement to provide at least 13,487 new dwellings with associated development and infrastructure in the period 2006-2026. The majority of this new residential development will be in four SDLs, of which Arborfield Garrison is one of these. Policy CP18 identifies that the Arborfield Garrison SDL will deliver a sustainable, well designed mixed use development of around 3,500 dwellings and associated infrastructure.
3. Core Strategy Policy CP18 is amplified by Appendix 7 of the Core Strategy, the Arborfield Garrison Strategic Development Location Supplementary Planning Document (SPD) and Infrastructure Delivery and Contributions SPD, which address the associated infrastructure impacts across the whole borough. These documents establish a requirement for a sustainable, well designed, mixed use development

and make clear that a co-ordinated approach to the development of the SDL will be required to deliver the necessary infrastructure, facilities and services to meet the needs of the expanded community.

4. Outline planning permission for the site was granted by Wokingham Borough Council on 02/04/2015. This established the principle for development for the site together with access for up to 2,000 new dwellings, district centre, neighbourhood centre, secondary school, primary school and two Suitable Alternative Natural Greenspace (SANGS). These were considered against the relevant Core Strategy policies and Local Plan policies. The current application seeks reserved matters approval for appearance, layout, landscaping and scale. Other issues such as updating the Flood Risk Assessment and Phasing are being considered under separate conditions applications.
5. The outline consent included an Infrastructure Delivery Plan and S106 legal agreement. The legal agreement secures the coordinated delivery of the infrastructure necessary to support the development and fair share of the SDL wide infrastructure. These included contributions towards off-site infrastructure and services such as roads, education, sports facilities, community facilities and green infrastructure. In addition, it secured an affordable housing contribution in accordance with the Core Strategy and Infrastructure Delivery and Contributions Supplementary Planning Document.
6. The details approved under the outline planning consent established parameters for the development including general site layout including the quantum of development, indicative location of housing, open space, density and general heights of buildings. Access to the site was also established.
7. The proposal represents the fourth phase of residential development on the Arborfield Garrison. Previous approved proposals include Parcel 'O1', 'T', 'A-G' the Nine Mile Ride Extension (NMRE) and the Arborfield Secondary School.

#### **Site Description**

8. The application site relates to an area of land within the Outline application that lies in the character area of the 'Southern Gateway'. The application site, referred to as 'Parcels H-J' at outline, is immediately adjacent to the A327, the Nine Mile Ride Extension (NMRE) and Sheerlands Road.
9. As described in the Outline application the existing land use of the site comprises of the vacated Arborfield Garrison (MOD use), which is currently not accessible to the public.

#### **Dwelling Mix:**

10. MDD LP Policy TB05 requires an appropriate housing mix, which reflects a balance between the character of the area and the current and projected needs of households.
11. The accommodation on the site would be provided within both apartments and houses. The mix of dwelling types provides a range of house types, smaller units, 2 bed dwellings, with larger houses and apartment buildings, which allows for an appropriate housing mix, which reflects a balance between the character of the area and the current and projected needs of households on the market.

12. The table below shows a breakdown of the mix of dwelling types and units on the first phase.

		Private	Affordable	Total
Apts	1 bed	0	8	8
	2 bed	27	9	36
Houses	2 bed	3	10	13
	3 bed	68	8	76
	4 bed	37	1	38
	5 bed	8	0	8
	Total	143	36	179

13. The proposal is considered acceptable and provides a good balance of accommodation on the site.

### Masterplan – Layout

14. Core Strategy Policies CP1, *Sustainable Development* and CP3, *General Principles for Development* requires high quality design that respects its context. This requirement is amplified by MDD LP Policies CC03, *Green Infrastructure, Trees and Landscaping* and TB21, *Landscape Character* and Arborfield Garrison SPD which requires development proposals to protect and enhance the Borough’s Green Infrastructure, retaining existing trees, hedges and other landscape features and incorporating high quality - ideally native – planting as an integral part of any scheme, within the context of the Council’s Landscape Character Assessment.

15. Core Strategy policy CP18, *Arborfield Garrison Strategic Development Location* sets out the concept rational for the design parameters for the Arborfield Garrison SDL and these are outlined in further detail in Appendix 7 of the Core Strategy. This states that:

*The attractive rural setting, which requires a design response to ensure the development, is absorbed into the landscape, taking account of natural features including watercourses, and to ensure a sense of the landscape permeates the development through an open space strategy*

16. Further design guidance is provided by the Arborfield Garrison SPD in section 4. Design principle 3 is concerned with character and states that there should be diversity and distinction in the SDL, which should be enhanced through the application of character typologies.

17. It is important to set out the site in the context of the wider planning permission for Arborfield Garrison. The application parcel itself forms a part of the Arborfield Garrison planning unit. In order to ensure consistency of design for the entire development, the Arborfield Garrison planning consent established design principles including indicative parameter plans for development limits, density and building heights. Further design guidance was also included within the Design and Access Statement.

18. To build upon these principles, a requirement of the outline planning permission was for the applicant to submit a design code with the submission of reserved

matters applications. The purpose of the design code is to ensure continuity of development across the site and the application of Garden Village principles in the design. In accordance with this requirement, the applicant has provided these details which have demonstrated the overarching principles for the entire site and are acceptable. The design principles outlined in the code will also be expected to be incorporated to the wider Arborfield Garrison planning unit.

19. The submitted masterplan retains the principles within the outline planning application and design code. To reflect this and inform diversity of development, the applicant has ensured differing street typologies, building heights and landscaping have been applied to promote variety and also manage vehicle speeds throughout the site. In addition, consideration has been applied to the relationship of the site and the constraints of the surrounding area through the application of these differing character areas.
20. The layout of the wider Arborfield Garrison development has been determined through the previous outline (O/2014/2280) and this included access into the development parcel. The parcels have been designed to decrease the street hierarchy off these main accesses to promote a variety of street typologies and promote the differences between the character areas. The layout of this parcel has been designed in accordance with site constraints, namely the pipeline and existing landscaping, WBC standards and good practice and as such is considered acceptable.

#### **Masterplan – Density**

21. Design principles 3 (a-g) are outlined in the Arborfield Garrison SPD and are concerned with the character of the development, including the density of development. The Core Strategy approach for the Arborfield Garrison SDL in respect to density is outlined in Appendix 7 which indicates an average density of 30-35 dwellings per hectare (d/ha) across the SDL. Additionally the Arborfield Garrison outline planning consent established 'Parcels H, I and J' to be of '*medium* density' and therefore prescribed as 27-37 dwellings per hectare (d/ha).
22. The overall density proposed by the application equates to 35 d/ha which will include a provision of 20% on-site affordable housing. The remaining 15% is to be commuted off-site. There is no particular area within the development parcel that boasts a significantly higher density compared with the rest of the site, the units are distributed relatively evenly across the parcels with the majority of units being two storeys in height with the occasional 3 storey apartment building being utilised at focal points within the development.
23. This approach is considered consistent with the advice provided by the SPD, the previously approved outline application and the overall density of development is in line with Appendix 7 of the Core Strategy and is therefore acceptable.

#### **Masterplan – Design and Appearance**

24. In terms of the detailed design of the buildings, the Arborfield Garrison SPD recommends that the existing built form should be used to inform the design. The Design and Access Statement and Design Code include a character analysis of the surrounding area and picks out themes that are common in the locality. These have been used to help inform the design style of the dwellings which take clear character references from the local vernacular architecture. The design should also

be influenced and consistent with the Garden Village Principles as well as relating well with previously approved parcels.

25. Throughout the site, the applicant has provided a good range of housing types and styles ensuring that there is diversity in the built form and a range of housing for future occupants. The application of character areas outlined above also helps provide variety throughout the site. In addition, there is diversity in the style and heights of the dwellings achieved through detailing such as rendering on some house types and brick work details on others. This helps to provide a clear and legible neighbourhood.
26. The development parcel has two natural segments due to the provision of a central green strip that includes the attenuation basin, pipeline and an existing hedgerow, as per the parameters at outline stage. While these sections appear physically separate they provide a pedestrian / cycle access and can be used as emergency access to connect the two segments and connect to the wider Arborfield network. Public spaces are overlooked by dwellings to ensure surveillance and security. The designs of the dwellings and outline parameter plans, allow for three storey building to create 'landmark buildings' at strategic locations as well as fronting onto the northern section of the Nine Mile Ride Extension. Equally the materials used and details, such as render and timber cladding, is not only reflective of the surrounding properties but also reflective of the first phases of development in the Arborfield Garrison development location.
27. Whilst the proposal introduces a more traditional design into the SDL, the NPPF states *planning policies and decisions should not attempt to impose architectural styles or particular tastes and they should not stifle innovation, originality or initiative through unsubstantiated requirements to conform to certain development forms or styles. It is, however, proper to seek to promote or reinforce local distinctiveness.* The proposal consists of features that are found in the local vernacular. It is considered that the applicant has carefully considered the design in the context of the surrounding area and proposes a design that is respectful to the character of the area.
28. The overall design approach for all of the dwellings is considered appropriate, although they differs from that of the consented schemes on the SDL in their design, offering a new distinct character in this area and is generally considered successful in its approach and respects the context of the site location and in accordance with the advice provided by the NPPF, policies CP1 and CP3 together with the Arborfield Garrison SPD and Supplementary Planning Guidance. The proposals are therefore considered acceptable.

#### **Masterplan – Landscape**

29. Much of the development site is open fields at present whilst there is not a huge presence of significant existing vegetation; the masterplan has carefully considered the landscape and incorporated this into the design. The development parcels are enclosed by existing mature vegetation and these are to be retained and reinforced in areas where required.
30. Elsewhere in the Parcels there are existing and proposed hedgerows that break up the development. Again the layout has been carefully considered to ensure that this would be retained with appropriate buffers from the built form. Although street

planting is limited in some of the internal streets of the site, some key tree planting has been achieved with views through to green spaces and landscaping. This helps soften the development and there is also hedgerow planting to the front of the dwellings in front garden areas where space is limited for tree planting.

31. Within the development, landscaping is proposed throughout the residential areas. Landscaping strips and SUDs have been established through the primary infrastructure and these will include tree planting. Along the main roads in the development a regular line of trees is proposed which, when established, will give this area an avenue type feel and also help distinguish it as part of the primary route for the site. More informal planting is proposed in the other character areas which include trees and low level planting. These measures together with the proposed boundary treatments would reduce and mitigate the proposed development's impact on the landscape and is generally consistent with the advice provided by the Arborfield Garrison SPD.
32. Officers consider that the applicant has carefully considered the landscaping within the site masterplan. Where possible existing trees are to be retained and there would be no loss of any species considered significant by the Landscape Officer. Semi mature trees are proposed within the site layout which would help soften the built form and provide a verdant character along the areas of public open space. Where existing vegetation has been lost, this has been established at the outline planning stage and is mitigated against with new planting. Particular attention has been given to the northern boundary of development parcels and how the proposal links with the Nine Mile Ride and Sheerlands Road.

### **Masterplan – Conclusion**

33. The design approach taken to inform the layout and appearance of the buildings is considered to respond well to the existing landscape features, context of the site and surrounding area. The applicant has satisfactorily demonstrated a comprehensive approach to the delivery of the dwellings under consideration by this reserved matters application. This has been achieved through applying the principles of the design code in the proposed layout and the principles of the Garden Village.
34. Overall, it is considered that the proposal would not have a significant detrimental impact on the character of the area and is broadly in accordance with the principles of the relevant planning policies and supplementary planning advice and represents high quality development.

### **Residential Amenity – Impact upon Neighbouring Properties**

35. Core Strategy policy CP3 requires that new development should be of a high quality of design that does not cause detriment to the amenities of adjoining land users. Separation standards for new residential development are set out in section 4.7 of the Borough Design Guide.
36. The proposal is subject to parameters set at outline stage that includes both separation distances and open space plans. The development parcel is located in the most southwestern section of the Arborfield Garrison development away from neighbouring properties. It is therefore considered that there would be no significant impacts to existing residents in terms of overlooking, loss of light and overbearing.

### **Residential Amenity – Noise**

37. Whilst it is acknowledged that there would be a greater level of activity in the area arising from the delivery and future occupation of the housing, this would not be to an extent that is unusual in a residential area. As the site has been identified as being suitable for housing, the principle of residential development in this area has been established. The outline permission also secured via condition and s106 the construction routes for the proposal in order to keep disruption to a minimal. Construction activities would be temporary and Condition 68 of the Outline Planning consent controls the hours of operations to 0800-1800 on Mondays to Fridays and 0800-1300 on Saturdays.
38. It is considered that the proposal would not result in any significant harm to the amenity of the existing residents and is in accordance with policies CP1 and CP3 and supplementary planning guidance.

### **Residential Amenity – The Amenity of Future Occupants of the Development**

39. The Borough Design Guide and MDD LP policy TB07 set out minimum thresholds for private amenity space and internal space standards which new residential development should be assessed against.

#### *Private Amenity Space*

40. The Borough Design Guide sets a minimum garden depth of 11.0 metres. In terms of the submitted masterplan, the proposed layout complies with these requirements with all houses meeting the minimum threshold, apart from eight of the 179 units. However, the majority of these are just below 11 metres; the units front either onto or are in close proximity to open space within the layout. Equally, for some of the proposed houses, the garden areas are wide which increases the area of amenity space. Overall, it is considered the development will provide acceptable levels of private amenity space for the future occupants of the dwellings and is in accordance with policy.

#### *Internal Space Standards*

41. With respect to internal floor space of the units, since 1st October 2015 national space standards have been in place as the Technical housing Space Standards. The dwellings comply to National Space standards, meeting requirements for overall area, bedroom sizes and storage allowances.

### **Security**

42. The layout of the masterplans takes into account the security required for a residential scheme. For example key three storey apartment buildings face unto the area of open space directly in the middle of the development parcel. Equally, the car parking for properties are well overlooked and dwellings located on the periphery are orientated to overlook public paths. The layout also means that there are back-to-back relationships, which restrict access to private amenity space.

### **Noise**

43. Core Strategy Policy CP1 and MDD LP Policy CC06 direct development away from areas where noise would impact upon amenity and require mitigation where noise cannot be completely avoided. Noise impacts from traffic from the A327 and NMRE upon the new occupier's amenities have been considered and are considered acceptable. Particularly with regard to the A327, the site is located behind an existing bund that shields the development from a lot of the noise produced. The

Environmental Health officer is satisfied with the proposals and therefore there is not considered to be significant impacts to the occupants of the proposed dwellings.

### **Sustainable Design and Construction**

44. Due to the replacement of the Code for Sustainable Homes with national standards in Building Regulations, the proposal is no longer required to meet Code 4 in line with Policy CC04 of the MDD. However, the policy does require that all development should incorporate suitable waste management facilities including on-site recycling (composting). Water resilience should also be built into the scheme, such as low usage toilets, showers and water recycling. It is considered that sufficient internal and external storage could be provided to accommodate this.
45. Additionally, there is a condition in the outline permission to secure low and zero carbon technologies, so to demonstrate how the development will achieve a 10% reduction in carbon emissions beyond the minimum requirement of 'Part L: Building Regulations'.

### **Access and Movement**

46. The outline planning permission established the access points to the site and was accompanied with a full Transport Assessment. This involved modelling the potential impacts of the development by using the Wokingham Strategic Transport Model which included a review of this development site, the Arborfield Garrison SDL and the wider Core Strategy development proposals. It was demonstrated that there would be no significant harm caused by additional houses to both local and the wider transport networks, subject to the delivery of the Transport Interventions that were identified and secured through a legal process. The current reserved matters application does not deviate from the established access points approved under the outline planning application. It should be noted that most of the highways related matters are being assessed in detail under separate conditions applications.
47. The main site accesses onto the Nine Mile Ride Extension were operationally assessed with the planning application for the Nine Mile Extension (reference 153336) and identified to function satisfactorily. A Road Safety Audited was also undertaken. These proposals (153336) also include pedestrian, cycle and equestrian facilities along the site frontage within the Linear Park.

### **Access and Movement – Site Layout**

48. There are three highway accesses to the site from the Nine Mile Ride Extension (NMRE), which have a direct connection to the new roundabout on the A327. These accesses from the NMRE were consented via the NMRE application (reference 153336). A 3.0 metre wide shared pedestrian and cycle route runs along the site frontage on the southern side of the NMRE. The pedestrian and cycle crossing have been modified to ensure there is an uncontrolled crossing 5-6m from the access give way line.
49. The proposal has been designed in accordance to the street hierarchy detailed in the Southern Gateway Design Code. It is composed of Primary Streets, Secondary Streets, Tertiary Streets type 1, Tertiary Streets type 2 and Access Ways / Parking Courts all designed in accordance with Manual for Streets. The Primary and Secondary Streets connect to the NMRE and provide the main connection links and are 6.1m (Primary) and 5.5m (Secondary) wide. The Tertiary Streets measure 4.8m. As buses are not planned to run through this part of the site the 4.8 metres width is

appropriate. It is considered that as these serve only a small number of units and larger vehicles are likely to meet each other very infrequently, therefore there is no significant issue in terms of highway movements.

50. There are a number of highway features that contribute to the public realm. In the central area of both parcels H and J there are 'focal squares' which comprises of traffic calming measures and differing materials that add to the character of the area and allow tertiary streets to be connected to the wider road network.
51. On the Tertiary Street, pavements have not been provided, however the proposed roads have been designed to have a shared surface for good pedestrian access within the site and future phases of development in the wider Arborfield Garrison development.
52. Additionally, the proposal includes shared surfaces and private drives off the tertiary streets that provide access to some residential dwellings. These areas of road are short in length and often consist of turning heads which will ensure low vehicle speeds within these zones. As such this is acceptable.

#### **Access and Movement – Car Parking**

53. In line with Core Strategy Policy CP6, Managing Travel Demand and MDDLDP Policy CC07: Parking, condition 40 requires reserved matters to incorporate car parking in line with the Council's standards. The standards require allocated parking to be supplemented with unallocated or visitor parking.
54. Officers are currently in discussions with the applicant regarding the detailed parking layout and therefore this information will be updated prior to committee in the members update.

#### **Access and Movement – Pedestrian, Cycle & Equine Access**

55. As discussed the proposal is located immediately off the Nine Mile Ride Extension and adjacent to Sheerlands Road. The cycle link that connects to the wider Arborfield network is located on the south side of the NMRE and therefore is adjacent to the development parcel. This cycle and pedestrian links into the parcel as well as the future bridleway on Sheerlands Road. Within the parcels H-J themselves an extensive network of walk and cycle links have been established and where there are cul-de-sacs in most instances have at least a footway connecting to other neighbouring parcels.
56. Given the proposal at Parcels H-J is the forth phase of the wider Arborfield Garrison development it is acknowledged that permeability across the wider area remains limited at this early stage. However, the applicant and the Council are working to ensure links are established early on in the development process to help promote sustainable routes across the wider area and that future residents can move between parcels and the wider area safely and easily.

#### **Access and Movement – Cycle Storage**

57. Consistent with Core Strategy Policies CP1, Sustainable Development and CP6, Managing Travel Demand, which expect development to make provision to support sustainable travel, Condition 29 of the outline planning consent requires cycle parking and storage in line with the Council's standards at the time. These are set out in MDDLDP Appendix 2: the requirement is for provision of at least one cycle

space for dwellings with three or fewer habitable rooms, two spaces for dwellings with four or five habitable rooms and three cycle spaces for larger dwellings.

58. Cycle parking is provided on site in designated individual cycle storage for dwellings and communal cycle storage for apartments. All dwellings and apartments have been provided with sufficient space for cycle storage/parking in accordance with the above requirements and as such the proposals are considered acceptable on this basis

#### **Access and Movement – Access to Public Transport**

59. In order to ensure good public transport to the site, a public transport strategy has been secured by Condition 33 of the outline planning consent. A new bus stop will be provided on the Nine Mile Ride Extension and Sheerlands Road which together mean that services will be within a 400m walk of all dwellings.

#### **Flooding and Drainage**

60. Core Strategy Policy CP1 and MDD DPD Policies CC09 and CC10 establish that new development should avoid increasing and where possible reduce flood risk and Arborfield Garrison SPD generally requires provision of a comprehensive system for water management, which takes account of existing features and includes proposals for effective sustainable urban drainage (SUDS), measures to avoid flood risk and new ponds.
61. At the outline stage, the applicant undertook a Flood Risk Assessment which determined that the residential part of the outline site is not located within areas shown to be at risk of flooding, as indicated by Flood zone 1 on the Environment Agency's Flood map. No housing development is located within areas that flood and therefore the proposal is considered acceptable in this regard.
62. Drainage was fully assessed at outline stage and further detailed assessment was undertaken as part of the development of each parcel and the Council and the EA are satisfied that the site has sufficient storage capacity and that the provision of SUDs, which will incorporate flood attenuation ponds, can be accommodated on-site and will mitigate the impacts of the development. The benefit of SUD's over the existing field use is that these should improve the current situation by preventing water from running off the land too quickly.
63. A raft of measures has been provided to alleviate flood risk for the site and to accord with the parameters set at the outline stage. These have been assessed and there is no objection from the Drainage Officer. The proposed drainage strategy generally fits in with the approved AECOM surface water drainage strategy with discharge limited to no more than what was approved at outline stage.

#### **Thames Basin Heaths Special Protection Area**

64. The Thames Basin Heaths Special Protection Area (SPA) was designated under European Directive due to its importance for heathland bird species. Core Strategy policy CP8 establishes that new residential development within a 7km zone of influence is likely to contribute to a significant impact upon the integrity of the SPA. The Arborfield Garrison SDL falls within this zone of influence and, in accordance with Core Strategy policy CP17 and Design Principle 1c (vi), mitigation in the form of Suitable Alternative Natural Greenspace (SANG) is being provided.

65. The development will be mitigated by the provision of the Suitable Alternative Natural Greenspace (SANGS) In the north-eastern part of the outline application site ("Northern SANGS") and at West Court ("West Court SANGS"). This has been designed to provide sufficient space required to compensate for the growth in resident numbers associated with this phase of the Arborfield Garrison development. Planning permission for the SANGs has been granted under the outline consent (Ref: O/2014/2280) and as such this meets the Natural England's 'Guidelines for the Creation of Suitable Alternative Natural Greenspace' (SANG) (2008) in terms of having all the essential features required to attract recreational users away from the SPA. Natural England and the Biodiversity Officer are satisfied with this approach. The SANG will be open prior to first occupation.

### **Ecology**

66. Core Strategy Policy CP7, carried forward by MDD LP Policy TB23, requires appropriate protection of species and habitats of conservation value. Design Principle 1b (i-ii) is concerned with protection of ecological habitat and biodiversity features, together with mitigation of any impacts that do arise. There is not considered to be a significant impact on ecology and therefore the proposal is considered to acceptable.

### **Archaeology**

67. Core Strategy Policy CP3 and MDD LP Policy TB25 require the archaeological impact of development to be taken into consideration. An Archaeological Evaluation report for the proposal was submitted and Berkshire Archaeology are satisfied that, given the nature of the features encountered, no further archaeological investigation will be required on this parcel.

### **Affordable and Specialist Housing**

68. Core Strategy Policy CP5 requires a mix of tenures, including up to 50% affordable housing. The Infrastructure and Contributions SPD states that development within the SDLs should seek 35% affordable housing which echoes Appendix 7 of the Core Strategy.

69. The application proposes 36 units of affordable housing on site. Under the Outline permission the s106 sought a commuted sum for the provision of off-site affordable housing in order to secure the 35% affordable housing required for the application. The onsite provision is in accordance with this agreement and therefore considered acceptable.

### **CONCLUSION**

The reserved matters are consistent with the principles and parameters established by the outline planning permission, which themselves reflect the Council's adopted policies and guidance for development within the Arborfield Garrison SDL. It is considered that the applications will deliver high quality development in accordance with the Council's spatial strategy and vision and therefore can be recommended for approval.
