

## Background

With the introduction of the 21<sup>st</sup> Century Council we are reviewing the knowledge, skills and behaviours that we need to ensure our success in the future and put us in the best position to provide a high quality service to the communities we serve.

## Our Aims

Key to our success is our people, and we want to ensure that everyone:

- Understands the organisation's vision and the focus on outcomes and value for our residents and how their work contributes to it
- Is clear about how well they are performing; that they are consistently challenged and supported to be the best they can be
- Has access to the training and support they need to improve their performance and develop their skills
- Collaborates across organisational boundaries, layers and functions in the organisation to build effective partnerships both internally and externally
- Understands the implications of the changes in the organisation's environment and are confident in the new ways of working

We are going to need leadership that focuses on high challenge, high support and that demonstrates:

- A focus on our people
- Clarity and consistency
- Determination and resilience
- Confidence in ourselves and sharing that confidence with others
- Knowledge and understanding of how the Council works as a whole
- Effective communication skills
- An ability to convert vision, strategy and policy into effective implementation
- The courage to ask difficult questions and to deliver difficult messages

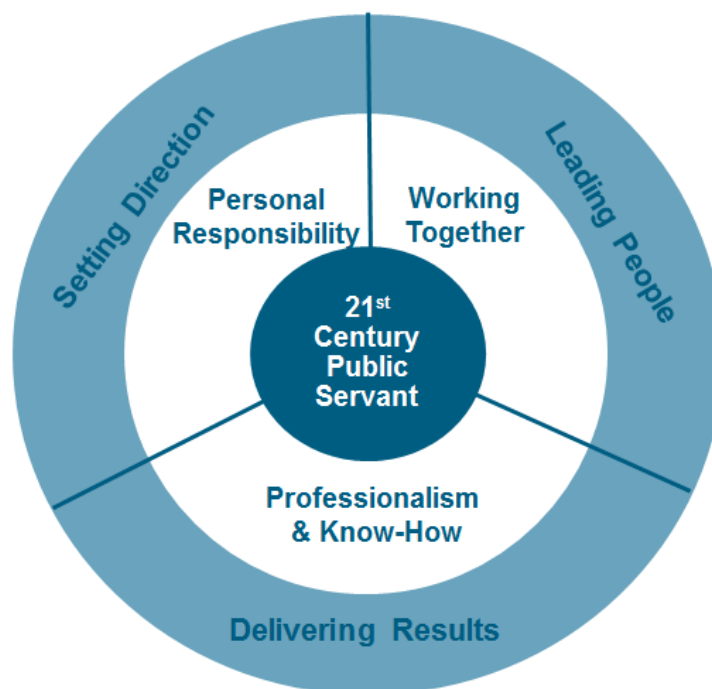

***In summary, we want every member of staff to feel connected to the organisation, valued for their contribution, and working to be the best they can be.***

## Introducing the Competency Framework

In order to help us achieve our goals, we have developed a competency framework that identifies the key qualities that we are looking for in our staff and leaders. The framework is tailored to our specific environment and is applicable to all roles across the organisation. It aims to enhance both individual and organisational performance and will be used across the organisation in the development of:

- Job descriptions
- Recruitment and selection processes, including assessment centres
- Performance management, including appraisal
- Learning and development
- Talent management and succession planning

***This is the complete framework which will be applied as appropriate for a particular purpose.*** For example, job candidates will only receive a summary relating to the role they have applied for, not the whole document.

The qualities have been divided into 4 themes; these are the **core competencies** for everyone:

- **21st Century Public Servant:** this is central to all we do and includes being adaptable, resilient, focused on change and improvement, being innovative and having commercial awareness
- **Personal Responsibility:** includes taking ownership and being accountable for your work while operating with honesty, integrity and respect

- **Professionalism and Know-How:** includes how you plan and organise your time to deliver high quality work, including your own learning and development
- **Working Together:** includes how we work together as One Team, communicating effectively and providing a high level of customer service both internally and externally

For people managers, there are 3 additional *leadership competencies*:

- **Setting Direction:** includes strategic thinking, ambition for the council and personal courage
- **Leading People:** includes enabling people, sharing the vision and inspiring others
- **Delivering Results:** includes being performance-focused, driving improvement, setting the right pace for change, influencing others and being politically astute

*These measurable competencies describe how we need to perform our roles, rather than what we need to achieve. Your role objectives will still set out what you need to achieve each year, and the skills and knowledge required for each job role are set out in individual job descriptions.*

Each competency contains bands that can be used to assess the behaviours that are consistently demonstrated. There are four bands: **Foundation, Proficient, High Achiever, Role-Model**. Each competency is explained in more detail in the following pages, with a description of the expected performance levels and examples against which people can be appraised.

The behaviours become more challenging as you move through the bands. **The bands are cumulative, so someone who is expected to demonstrate Role-Model behaviour would also be expected to demonstrate all previous positive qualities.**

The examples given against each behaviour describe the types of things that you might see individuals demonstrating this behaviour doing; they are a guide rather than an exhaustive list. Examples of behaviour that needs to be challenged or developed are also included to aid thinking and discussions.
