- 3) Recommend the report to Council for approval.

SUMMARY OF REPORT

This report summarises the Treasury Management operations during the first six months of 2018/19. It is presented for the purpose of monitoring and review, in accordance with Council's treasury management practices.

As at 30 September 2018 the Council is forecast to exceed its investment return budget and there has been no external loan taken out in the first six months.

The Deputy Section 151 Officer confirms that as at 30 September 2018 there have been no breaches of the treasury management strategy 2018/19.

Background

The Council operates a balanced budget, which broadly means cash raised during the year will meet its cash expenditure. Part of the treasury management operations ensure this cash flow is adequately planned, with surplus monies being invested in low risk counterparties, providing adequate liquidity initially before considering maximising the council's investment return.

The second main function of the treasury management service is the funding of the Council's capital plans. These capital plans provide a guide to the borrowing need of the Council, essentially the longer term cash flow planning to ensure the Council can meet its capital spending operations. This management of longer term cash may involve arranging long or short term loans or using longer term cash flow surpluses. On occasion, any debt previously drawn may be restructured to meet Council risk or cost objectives.

Analysis of Issues

- Housing Revenue Account: £79.8m.

FINANCIAL IMPLICATIONS OF THE RECOMMENDATION

The Council faces severe financial challenges over the coming years as a result of the austerity measures implemented by the Government and subsequent reductions to public sector funding. It is estimated that Wokingham Borough Council will be required to make budget reductions in excess of £20m over the next three years and all Executive decisions should be made in this context.
