

**Overview**

**Note on entering information into this template**

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

Data needs inputting in the cell

Pre-populated cells

**Note on viewing the sheets optimally**

For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the guidance sheet for readability if required.

The details of each sheet within the template are outlined below.

**Checklist (click to go to Checklist, included in the Cover sheet)**

1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed.
3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes'
4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to 'Complete Template'.
6. Please ensure that all boxes on the checklist are green before submission.

**2. Cover (click to go to sheet)**

1. The cover sheet provides essential information on the area for which the template is being completed, contacts and sign off.
2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to [england.bettercaresupport@nhs.net](mailto:england.bettercaresupport@nhs.net)
3. Please note that in line with fair processing of personal data we collect email addresses to communicate with key individuals from the local areas for various purposes relating to the delivery of the BCF plans including plan development, assurance, approval and provision of support. We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed. Please let us know if any of the submitted contact information changes during the BCF planning cycle so we are able to communicate with the right people in a timely manner.

**4. Strategic Narrative (click to go to sheet)**

This section of the template should set out the agreed approach locally to integration of health & social care. The narratives should focus on updating existing plans, and changes since integration plans were set out until 2020 rather than reiterating them and can be short. Word limits have been applied to each section and these are indicated on the worksheet.

1. Approach to integrating care around the person. This should set out your approach to integrating health and social care around the people, particularly those with long term health and care needs. This should highlight developments since 2017 and cover areas such as prevention.
- 2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant). This should set out the agreed approach and services that will be commissioned through the BCF. Where schemes are new or approaches locally have changed, you should set out a short rationale.
- 2 ii. DFG and wider services. This should describe your approach to integration and joint commissioning/delivery with wider services. In all cases this should include housing, and a short narrative on use of the DFG to support people with care needs to remain independent through adaptations or other capital expenditure on their homes. This should include any discretionary use of the DFG.
3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples may include the read across to the STP (Sustainability Transformation Partnerships) or ICS (Integrated Care Systems) plan(s) for your area and any other relevant strategies.

You can attach (in the e-mail) visuals and illustrations to aid understanding if this will assist assurers in understanding your local approach.

**5. Income (click to go to sheet)**

1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2019/20. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), IBCF (Improved Better Care Fund) and Winter Pressures allocations to be pooled within the BCF. These cannot be edited.
2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include any relevant carry-overs from the previous year.
3. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest pound.
4. For any questions regarding the BCF funding allocations, please contact [England.bettercaresupport@nhs.net](mailto:England.bettercaresupport@nhs.net)

## 6. Expenditure (click to go to sheet)

This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information is then aggregated and utilised to analyse the BCF plans nationally and sets the basis for future reporting and to particularly demonstrate that National Condition 2 and 3 are met.

The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and analysing schemes.

On this sheet please enter the following information:

### 1. Scheme ID:

- This field only permits numbers. Please enter a number to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple rows.

### 2. Scheme Name:

- This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above.

### 3. Brief Description of Scheme

- This is free text field to include a brief headline description of the scheme being planned.

### 4. Scheme Type and Sub Type:

- Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table).

- Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned.

- Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view.

- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.

- While selecting schemes and sub-types, the sub-type field will be flagged in 'red' font if it is from a previously selected scheme type. In this case please clear the sub-type field and reselect from the dropdown if the subtype field is editable.

### 5. Planned Outputs

- The BCF Planning requirements document requires areas to set out planned outputs for certain scheme types (those which lend themselves to delivery of discrete units of delivery) to help to better understand and account for the activity funded through the BCF.

- The Planned Outputs fields will only be editable if one of the relevant scheme types is selected. Please select a relevant unit from the drop down and an estimate of the outputs expected over the year. This is a numerical field.

### 6. Metric Impact

- This field is collecting information on the metrics that a chem will impact on (rather than the actual planned impact on the metric)

- For the schemes being planned please select from the drop-down options of 'High-Medium-Low-n/a' to provide an indicative level of impact on the four BCF metrics. Where the scheme impacts multiple metrics, this can be expressed by selecting the appropriate level from the drop down for each of the metrics. For example, a discharge to assess scheme might have a medium impact on Delayed Transfers of Care and permanent admissions to residential care. Where the scheme is not expected to impact a metric, the 'n/a' option could be selected from the drop-down menu.

### 7. Area of Spend:

- Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme.

- Please note that where 'Social Care' is selected and the source of funding is "CCG minimum" then the planned spend would count towards National Condition 2.

- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.

- We encourage areas to try to use the standard scheme types where possible.

### 8. Commissioner:

- Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list.

- Please note this field is utilised in the calculations for meeting National Condition 3.

- If the scheme is commissioned jointly, please select 'Joint'. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two columns alongside.

### 9. Provider:

- Please select the 'Provider' commissioned to provide the scheme from the drop-down list.

- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

### 10. Source of Funding:

- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list

- If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines, reflecting the financial contribution from each.

### 11. Expenditure (£) 2019/20:

- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines)

### 12. New/Existing Scheme

- Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being carried forward.

This is the only detailed information on BCF schemes being collected centrally for 2019/20 and will inform the understanding of planned spend for the iBCF and Winter Funding grants.

#### 7. HICM ([click to go to sheet](#))

National condition four of the BCF requires that areas continue to make progress in implementing the High Impact Change model for managing transfers of care and continue to work towards the centrally set expectations for reducing DToc. In the planning template, you should provide:

- An assessment of your current level of implementation against each of the 8 elements of the model – from a drop-down list
- Your planned level of implementation by the end March 2020 – again from a drop-down list

A narrative that sets out the approach to implementing the model further. The Narrative section in the HICM tab sets out further details.

#### 8. Metrics ([click to go to sheet](#))

This sheet should be used to set out the Health and Wellbeing Board's performance plans for each of the Better Care Fund metrics in 2019/20. The BCF requires plans to be agreed for the four metrics. This should build on planned and actual performance on these metrics in 2018/19.

##### 1. Non-Elective Admissions (NEA) metric planning:

- BCF plans as in previous years mirror the latest CCG Operating Plans for the NEA metric. Therefore, this metric is not collected via this template.

##### 2. Residential Admissions (RES) planning:

- This section requires inputting the information for the numerator of the measure.
- Please enter the planned number of council-supported older people (aged 65 and over) whose long-term support needs will be met by a change of setting to residential and nursing care during the year (excluding transfers between residential and nursing care) for the Residential Admissions numerator measure.

- The prepopulated denominator of the measure is the size of the older people population in the area (aged 65 and over) taken from ONS subnational population projections.

- The annual rate is then calculated and populated based on the entered information.

- Please include a brief narrative associated with this metric plan

##### 3. Reablement (REA) planning:

- This section requires inputting the information for the numerator and denominator of the measure.

- Please enter the planned denominator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (or from hospital to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home).

- Please then enter the planned numerator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (from within the denominator) that will still be at home 91 days after discharge.

- The annual proportion (%) Reablement measure will then be calculated and populated based on this information.

- Please include a brief narrative associated with this metric plan

##### 4. Delayed Transfers of Care (DToc) planning:

- The expectations for this metric from 2018/19 are retained for 2019/20 and these are prepopulated.

- Please include a brief narrative associated with this metric plan.

- This narrative should include details of the plan, agreed between the local authority and the CCG for using the Winter Pressures grant to manage pressures on the system over Winter.

#### 9. Planning Requirements ([click to go to sheet](#))

This sheet requires the Health & Wellbeing Board to confirm whether the National Conditions and other Planning Requirements detailed in the BCF Policy Framework and the BCF Requirements document are met. Please refer to the BCF Policy Framework and BCF Planning Requirements documents for 2019/20 for further details.

The Key Lines of Enquiry (KLOE) underpinning the Planning Requirements are also provided for reference as they will be utilised to assure plans by the regional assurance panel.

1. For each Planning Requirement please select 'Yes' or 'No' to confirm whether the requirement is met for the BCF Plan.

2. Where the confirmation selected is 'No', please use the comments boxes to include the actions in place towards meeting the requirement and the target timeframes.

#### 10. CCG-HWB Mapping ([click to go to sheet](#))

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

## Better Care Fund 2019/20 Template

### 4. Strategic Narrative

Selected Health and Wellbeing Board:

#### **Please outline your approach towards integration of health & social care:**

When providing your responses to the below sections, please highlight any learning from the previous planning round (2017-2019) and cover any priorities for reducing health inequalities under the Equality Act 2010.

Please note that there are 4 responses required below, for questions: A), B(i), B(ii) and C)

[Link to B\) \(i\)](#)

[Link to B\) \(ii\)](#)

[Link to C\)](#)

#### **A) Person-centred outcomes**

Your approach to integrating care around the person, this may include (but is not limited to):

- Prevention and self-care

- Promoting choice and independence

Remaining Word Limit:

The Wokingham H&SC system is very proud of our success in integrating services and delivering successful outcomes. In 2018/19:

- For residents that have been through MDTs we demonstrated a 30% reduction in NEAs, a 25% reduction in attendances at A&E and a 27% reduction in calls to our out of hour GP service.
- Our social prescribing service received 242 referrals with 87% of users reporting that they felt more self-reliant.
- Our step up service is operating at planned capacity, the service supported avoidance of NEAs (102 avoided) and A&E attendances (127 avoided)
- NEAs for the Target Conditions and > 70 years of age were 1,336 for 2018/19. This compares to 1,365 in 2017/18 and 1,329 for 2016/17, demonstrating a static position over the last three years.
- DToCs - 10.7% better than plan and 18.6% reduction on 2017/18 delays
- Keeping people at home safe and for longer as demonstrated by achieving 87% of patients at home for our 91 day target and reducing permanent care home placements, 80 permanent placements to care homes were made versus 126 in 2017/18.
- During 2018/19 we have worked hard to be able to demonstrate the financial benefits of the Wokingham BCF schemes. We went back to the original business cases and are now in a position to demonstrate the planned and actual savings during the last year. Benefits were derived from reductions in residential care/nursing care, DToC and NEAs, saving £2.46m.

Our integration programme continues to be centred on our service users' journey, as illustrated in our local version of 'Sam's Story' <https://youtu.be/Z3XDy2jzSb4>.

The total pooled fund for Wokingham has increased from £10.01m to £10.78m. The CCG is committed to supporting and maintaining the levels of spends in social care and has increased the minimum contribution by 4.6% for 2019/20.

Wokingham Integrated Strategic Partnership (WISP) and then Wokingham Integrated Partnership (WIP) is a sub-partnership of the Wokingham Wellbeing Board and WIPs main responsibility has been overseeing the introduction of the Better Care Fund (BCF) and implementing a programme of work to develop integrated adult health and social care services for Wokingham Borough. In 2014 Wokingham Clinical Commissioning Group (CCG) and Wokingham Borough Council (WBC) made a commitment to work in partnership towards true integration through a Section 75 agreement and our Better Care Fund plans in 2014, 2016 and 2017.

During 2017/18 WISP explored options for governance arrangements, as up until that time local governance was commissioner led through a section 75 partnership. We investigated several options including Alliance agreement, enhancing the Section 75 agreement and a Memorandum of Understanding (MoU). It was decided in December 2018 that a set of Guiding Principles with refreshed Terms of Reference would be the most appropriate solution in order to align with the 2 Berkshire West (BW) programmes/systems. We used The Kings Fund ten design principles for place based systems of care as a starting point for developing our local partnership.

The main drivers for refreshing the local governance at that time was to:

- Confirm Wokingham's commitment to developing integrated services
- Enable the development of relationships at a local level ensuring a bottom down, top up approach (e.g. Blackburn & Darwen)
- Put all partners on the same page for collaboration without a legally binding agreement which otherwise might have produced a conflict with existing statutory contractual arrangements between Commissioners and Providers.

**B) HWB level**

**(i) Your approach to integrated services at HWB level (and neighbourhood where applicable), this may include (but is not limited to):**

- Joint commissioning arrangements
- Alignment with primary care services (including PCNs (Primary Care Networks))
- Alignment of services and the approach to partnership with the VCS (Voluntary and Community Sector)

4
---

Wokingham Locality has a Health and Wellbeing Board (now known as Wokingham Wellbeing Board). The Board was created through the Health and Social Care Act 2012 and is a formal committee of the local authority with the main aim to improve integration between practitioners in local health care, social care, public health and related public services so that people and service-users experience more "joined up" care. It has a statutory duty, with CCGs, to produce a joint strategic needs assessment and a joint health and wellbeing strategy for their local population.

The overarching aim of WWBs Strategy 2018/21 is to create healthy and resilient communities and its key priorities as identified by the JSNA are:

1. Creating physically active communities (Appendices slide 5)
2. Narrowing the health inequalities gap (Appendices slide 6)
3. Reducing isolation (Appendices slide 7)

The WWB recognises that in order to deliver these 3 priorities it needs to influence and bring together change at a number of levels (Appendix Slide 8). WWB recognises that health inequalities are linked to deprivation, illness and protected characteristics. Wokingham is the least deprived borough in Berkshire but inequalities still exist.

WIP, as a sub-partnership of the Wokingham Wellbeing Board (WWB) is responsible for the Integration of Adult Health and Social Care, we support the move away from a competitive landscape of autonomous providers towards more integrated, collaborative and placed-based care. We also support the delivery of 2 of WWBs key outcomes; Creating resilient communities and those most deprived will enjoy more years in good health.

As part of our 2019/20 Q1 review and refresh of the governance of WIP it was agreed that the remit of the Partnership be widened from BCF to include the delivery of the following:

- Wokingham's Health and Social Care Integration, developing Wokingham's Integrated Care Networks to wrap around PCNs as they develop and mature
- Designing and implementing our neighbourhoods around the whole system of public services
- The infrastructure supporting the development of Primary Care Networks
- Informing and leading Wokingham's contribution to BW ICP

Since 2017 we have had a GP member at our Partnership board and since 2018 the member has represented all GPs in Wokingham Borough as all Wokingham primary care practices formed the Wokingham GP Alliance. With the changes in the NHS Long Term Plan and the new GP contract our Wokingham GPs will not be continuing with their Alliance and will work as 4 PCNs. In order to align with our developing PCNs, our 4 PCN Clinical Directors have accepted the invitation to become members of our Partnership board.

One of our 4 key priorities for 2019/20 is supporting PCN development, we have been working with our PCN Clinical Directors to explore opportunities to support them in the development of primary care networks. This includes:

- Since 2017 we have operated some of our functions around 3 GP network areas, as part of our 2019/20 plans we will be looking at how we realign these around the 4 agreed PCNs.
- Development of the PCN social prescribers. We have an existing service funded through the BCF as well as LA community support workers. A task and finish group including the VCS and LA are supporting the PCNs
- Our Partnership board discussed Schedule 7 - Draft arrangements with organisations outside the Network in June 2019. This is how the practices will work with their partners. Our GPs don't have to do this now as but it is a Statement of Intent of how we have worked and are working together. The board

**(ii) Your approach to integration with wider services (e.g. Housing), this should include:**  
- Your approach to using the DFG to support the housing needs of people with disabilities or care needs. This should include any arrangements for strategic planning for the use of adaptations and technologies to support independent living in line with the

[^^ Link back to top](#)

Remaining Word Limit: 0

In order to ensure that we are approaching integration with wider services we held an Annual Planning Day in April 2019 with invitees from across our locality, including wider LA departments (housing, DFG, strategy and partnerships, children's services), Thames Valley Police, Royal Berkshire Fire and Rescue and CVS. The aim of the day was to:

- Set the scene in Wokingham
- Become familiar with Wokingham's Population Health Management Intelligence
- Interpret the patient-level linked data and begin to understand the type of intervention it can challenge our system to take forward
- Identify our Key Priorities and Next Steps

As part of wider Berkshire West (BW) thinking, development of designing neighbourhoods with health and wellbeing in mind was identified the Chief Officers Group as a priority to develop over the coming years. BW has a population of 528,000 people in small rural villages and busy urban areas, so it's pointless designing a 'one size fits all' system of health and social care.

We know that people who live in areas where there's not much green space to play and walk dogs, where buses only run a couple of times a day, or where there's nowhere to meet up with friends it can have a big impact on their physical and mental health. They can become inactive and isolated and research shows that one in ten visits to a GP are for anxiety, stress or depression – all linked to loneliness.

During 2019/20, our plan is to work with all of our partners to create healthy environments tailor made to the needs of the people living there. Our vision is for places where people can walk and travel safely, with access to lots of activities and events and a support network which caters for the needs of all ages. A working party has been developed to agree the scope and terms of reference in order to move this ambition forwards over the next few years.

To get it right, we will need to establish what it is communities need and what's preventing them taking more control of their health and wellbeing. It's no use GPs encouraging people to become more active if there's nowhere for them to go, or it's too expensive for them to get there.

By building communities that support social cohesion, physical and mental wellbeing and give people a real opportunity to take responsibility for their health and wellbeing we can free up scarce health and social care resources to be targeted in areas of greater need.

In our 2017/19 plan we said that we would ensure much closer working between the BCF and DFG. We have worked with our DFG team to develop a quarterly performance report and the DFG team attend our Partnership Board on a quarterly basis to present this report. This has enabled us to understand prioritisation, referral numbers, active caseload, approvals and completions and major and minor works. The DFG team have also developed a customer satisfaction survey in order to understand and improve the service. In 2019/20 we have plans for Foundations to carry out a DFG Audit in order to understand what is working well and where we have opportunities to improve processes and thus performance of our service.

In 2018/19 we supported 79 new adult DFG cases, compared with 18 new children's DFG cases. In the adult's pathway the total cost of completed works (both major and minor works) was £567,779 of which £483,907 spent on major works and £83,872 spent on minor works and the cost of children's adaptations was £113,315.

Utilising the DFG more imaginatively has been a focus for us and this has encompassed exploring and enabling a more strategic approach to use of Technology Enabled Care (TEC). In July 2018 our partnership board agreed in principle to an enhanced assistive technology outline business case. The aim of the service will be to increase TEC usage across Adult Social Care (ASC) and partner organisations, have a more robust system of recording to evidence demonstrable savings and to continue to provide enhanced quality of life for customers and carers.

We have had a TEC practitioner delivering TEC solutions for residents for a few years, in 2018/2019 approximately 184 Wokingham residents accessed TEC. We plan to scale up this offer through a 5 year programme by increasing staffing to an OT/TEC lead – strategic/management focus, 3 x FTE TEC/OTA practitioner posts and Admin support. During Q3 and Q4 of 2018/19 a project team have agreed and developed our TEC offer further with DFG and capital funding.

By year 5 we anticipate that approximately 540 people per year will be accessing the service and that we will be delivering savings of £300k per year through care avoidance.

**C) System level alignment, for example this may include (but is not limited to):**

- How the BCF plan and other plans align to the wider integration landscape, such as STP/ICS plans

- A brief description of joint governance arrangements for the BCF plan

[^^ Link back to top](#)

Remaining Word Limit: 0

We have ensured that our BCF and Integration plan aligns not only with our WWB, but also with the BWICP and BOB ICS. The BOB ICS 5 year plan is currently being drafted, with an overall vision to create a joined up H&SC system where everyone can live their best life, get great treatment, care and support now and into the future. Its 5 aims are:

- To work together to deliver joined up H&SC services based on the needs of individuals and shaped by the circumstances and priorities of local communities
- To support people to live longer, healthier lives and treat avoidable illness early on
- To make the best use of limited public funds and resources so that, together, we can secure the best outcomes
- To make our focus local unless it is more efficient and effective for us to pool our expertise and resources to work together as an integrated H&SC system across BOB.
- To reach out, where appropriate, beyond our borders and work in partnership with others

Both our ICS and ICP recognise that a local first approach will be where we apply our efforts to make the majority of our improvements at a neighbourhood and locality level. Where it makes sense to combine our efforts the bigger challenges can be faced at an ICS level.

The Berkshire West Integration Programme (BW10) was established in 2014 and brought together 10 partners from H&SC, it became the BW7 when the 4 CCG's merged in 2016. Its initial focus was geared towards improved integration of Elderly Frail Services alongside oversight of the BCF. In 2016 the 3 BW Health Partners were announced as one of 12 Integrated Care System (ICS) Vanguards, the initial focus being a health integration programme.

The need to integrate the BW7 and BWICS governance structures began to emerge early in 2018. It was clear that the two governance structures were seen as increasingly difficult to support; the agendas of the 2 groups were beginning to merge; the Reading CQC local system highlighted the confusion caused by 2 similar governance structures; churn in senior staff, most notably within local government, was also exacerbating capacity constraints in senior leadership teams.

It was agreed at the Chief Officers Workshop, November 2018, that one of the three priorities moving forward should be a review of governance structures for the BWICS and the BW7. The aim was to produce a single governance structure for both. The governance structure reflects The NHS Long Term Plan and the proposed infrastructure released by NHSE late in 2018 which would be used to help shape future H&SC governance arrangements (slide 10 shows the BWICP governance structure). This was essentially based on three layers within a local architecture – System, Place and Neighbourhood. Locally, the term Locality has also been introduced into this infrastructure.

- System: covers Buckinghamshire, Oxfordshire and BW (BOB) ICS, population of 1.8 million. Strategic collaboration with partners will take place at scale
- Place: the newly formed BWICP, population of 600,000. This will involve transformation and integration of local services
- Locality: the three localities (Reading, West Berkshire and Wokingham) in line with Local Authority geographies, population of around 160,000. Each locality has a Wellbeing Board and an Integration Locality Board/Partnership
- Neighbourhood: the PCNs of which there are 14 across BW, each with a population of around 30-50,000

In May 2019 the proposed governance arrangements for a combined BWICS and BW7 were agreed and from the 1st July 2019 the BW Integrated Care Partnership (ICP) was formed and became operational. The BWICP is currently made up of:

- 7 Public Sector organisations: Berkshire West CCG, West Berkshire Council, Reading Borough Council, Wokingham Borough Council, Berkshire Healthcare Foundation Trust, Royal Berkshire Foundation Trust and South Central Ambulance Foundation Trust.
- 14 PCNs with 44 GP practices
- 600,000 residents living in rural and urban localities

The driving force of the BWICP is to work, at scale, to provide more co-ordinated services which meet the needs of the people we serve in the most effective, efficient and financially sound way.

## Better Care Fund 2019/20 Template

### 7. High Impact Change Model

Selected Health and Wellbeing Board:

Wokingham

**Explain your priorities for embedding elements of the High Impact Change Model for Managing Transfers of Care locally, including:**

- Current performance issues to be addressed
- The changes that you are looking to embed further - including any changes in the context of commitments to reablement and Enhanced Health in Care Homes in the NHS Long-Term Plan
- Anticipated improvements from this work

Following our LGA Berkshire West 7 (BW7) DToc Peer Challenge in Q4 of 2017/18, the 3 Locality Integration Boards and the BW7 Delivery Group agreed that they would ensure improvement in DToc performance across the 3 locality areas. We took a Health and Social Care (Berkshire West), approach to the 8HICM along with the Senior Responsible Officer (SRO) for each change area.

The governance and delivery of the 8 HICM was the responsibility of the BW7 Delivery Group until July 2019. With the changes in governance to the Berkshire West ICP, the responsibility for the 8 HICM has transferred to the A&E Delivery Board. The Board agreed the planned level of maturity for 2019/20 in August 2019.

Across Berkshire West all our staff have worked hard to aim to achieve our DToc targets which is shown by the year on year reduction (evidenced in slide 11 of the appendices). We acknowledge that we have not been able to consistently able to achieve our targets and we continue to work on implementing the 8 HICM to address this. We introduced weekly DToc Director meetings which have been monitoring weekly delays and identifying themes. These meetings have evolved into quarterly deep dives to understand the main issues/bottlenecks in whole system.

The 3 main causes of DTOCs have been identified as:

1. Care provider market issues – the BW market place is complex and there are differences in each of the 3 locality areas. One common theme is the low paid nature of this work, coupled with the high cost of living, there are not sufficient numbers of people wanting to work in the sector and therefore capacity is limited.
2. In specific areas of the BW system reablement and rehabilitation services have been identified as a cause of people being delayed in hospital.
3. CHC assessments not being done outside of hospital – in 2018/19 12% of CHC assessments were carried out in the acute sector, which is below our target, but does not meet the 8 HICM requirement of all CHC assessments being done outside of hospital.

During 2019/20 the following changes are planned:

- Systems to monitor patient flow – We currently have a pilot electronic patient flow system which we plan to implement fully by March 2020.
- Trusted Assessors (TA) – a new BW task and finish group has been set up to continue work on developing our Trusted Assessor model. We have a single assessment format agreed, but it is not used consistently. The task and finish group is developing training modules and manuals for implementation by March 2020 across all BW health and LA providers.
- Enhancing Health in Care Homes – We consider that we have a high performing integrated care homes service. In order to make sure this is mature we

		Please enter current position of maturity	Please enter the maturity level planned to be reached by March 2020	If the planned maturity level for 2019/20 is below established, please state reasons behind that?

## Better Care Fund 2019/20 Template

### 8. Metrics

Selected Health and Wellbeing Board:

Wokingham

#### 8.1 Non-Elective Admissions

	19/20 Plan	Overview Narrative
Total number of specific acute non-elective spells per 100,000 population	<p><b>Collection of the NEA metric plans via this template is not required</b> as the BCF NEA metric plans are based on the NEA CCG Operating plans submitted via SDCS.</p>	<p>NEAs for 2018/19 were 14,789 compared to a Plan figure of 12,848 (15.1% higher) and for the same period in the prior year of 13,630 (8.5% higher). NEAs for 2017/18 were 13,630 versus plan of 12,612, (8.1% above plan). We have compared our performance nationally and Wokingham is the 8th best performer in England for NEAs. Whilst we have worked hard to reduce NEAs part of the reason we believe we have not achieved this target is because the CCG operating plan for NEAs for 2017/18 and 2018/19 were set following the NHS planning rules and includes IHAM (Indicative Hospital Activity Model) growth including demographic growth and a QIPP reduction with a net reduction of 1.8% against our 2016/17 out turn, the only year we achieved our target, which proved to be a real challenge considering that we are already a high performing system.</p> <p>Our target for NEAs for 2019/20 is 15,643 NEAs. We plan to achieve this target for NEAs through:</p> <ul style="list-style-type: none"> <li>• Continuing our Rapid Response (including Step Up), Maximising Independence and Complex Case Management ICN functions, In 2018/19 these 3 functions reduced NEAs by 227 NEAs and our plan for 2019/20 is a reduction of 312 NEAs from these functions.</li> <li>• Continuing the Berkshire West Integrated Care Homes and the SCAS Falls &amp; Frailty services are will also contribute to managing NEAs.</li> <li>• Population Health Management approach – using data to identify groups of people or costs, who have frequent admissions (population segmentation), understand the reasons for the admissions in a group and develop actions/interventions to reduce them.</li> <li>• Development of Integrated Care Networks and Primary Care Networks which enables more efficient use of existing resources and avoiding duplication, so that users receive care in the right place at the right time.</li> </ul>

Please set out the overall plan in the HWB area for reducing Non-Elective Admissions, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Plans are yet to be finalised and signed-off so are subject to change; **for the latest version of the NEA CCG operating plans at your HWB footprint please contact your local Better Care Manager (BCM)** in the first instance or write in to the support inbox:  
ENGLAND.bettercaresupport@nhs.net

#### 8.2 Delayed Transfers of Care

	19/20 Plan	Overview Narrative
Delayed Transfers of Care per day (daily delays) from hospital (aged 18+)	7.8	<p>DToC days for 2018/19 were 3,001 days v Plan of 3,360 (10.7% better than plan). This compares to 3,689 days for the same period in the prior year (18.6% reduction year-on-year). Overall for the year we have met the target in 3 of the 4 quarters, Q4 was above plan figure, although a similar peak was seen in Q4 of all prior years.</p> <p>It must also be noted that we have made a significant improvement in delayed days for social care, which has reduced from 765 days (Nov–March 2017/18) to 320 days (Nov–March 2018/19), a 58% reduction on the previous year. We have compared our performance nationally and Wokingham is now ranked 48th, improved from 54th in 2017/18.</p> <p>Our target for 2019/20 has remained the same as 2018/19 at 240 delayed days per month, which we are committed to achieving. We are aiming to do this by:</p> <ul style="list-style-type: none"> <li>• increasing funding for our Facilitated &amp; Supported Discharge function, delivered by our Health Liaison Team.</li> <li>• using our IBCF and a significant proportion of our Winter Pressures monies to help reduce the peak in delays due to higher admissions during the period from November to March.</li> <li>• restructuring our Step Down Beds scheme in order to deliver better value for money and better outcomes for our users</li> <li>• supporting a review led by Berkshire Health Foundation Trust of intermediate care services, to support a better service to people that potentially may go to hospital</li> <li>• continuing to commission the CHS service at RBFT</li> <li>• delivering against our action plan for the 8 HICM along with our partners in Reading</li> </ul>

**Please set out the overall plan in the HWB area for reducing Delayed Transfers of Care to meet expectations set for your area. This should include any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric. Include in this, your agreed plan for using the Winter Pressures grant funding to support the local health and care system to manage demand pressures on the NHS, with particular reference to seasonal winter pressures.**

Please note that the plan figure for Greater Manchester has been combined, for HWBs in Greater Manchester please comment on individual HWBs rather than Greater Manchester as a whole. Please note that due to the merger of Bournemouth, Christchurch and Poole to a new Local Authority will mean that planning information from 2018/19 will not reflect the present geographies.

### 8.3 Residential Admissions

42

		18/19 Plan	19/20 Plan	Comments
Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population	Annual Rate			<p>Permanent Admissions to Care Homes for 2018/19 were 80 against a target of 132 and 126 for 2017/18. Whilst we have reduced the demand on admissions to care homes year on year we recognise that due to increasing care home costs WBC remain financially challenged, but without the work of the BCF schemes would be in an even more financially challenged position.</p> <p>We recognise that our performance in 2018/19 was exceptional and when we reviewed our metrics for 2019/20 we set our target based on previous year's performance, targets and the plans/assumptions for care home admissions in our WISH business case from 2016 as we had done in previous years. Our previous year's admissions to care homes were:</p> <ul style="list-style-type: none"> <li>o 2015/16 – 138 admissions</li> <li>o 2016/17 – 122 admissions</li> <li>o 2017/18 -126 admissions</li> <li>o 2018/19 – 80 admissions</li> </ul> <p>• The WISH 5 Year Business Case included an assumption of a demographic increase for &gt;65s of 4.8% in 2019/20 and each year we have uplifted our target to include this demographic growth from the baseline of 2015/16.</p> <p>We have applied this 4.8 percentage increase to the 2018/19 target number of admissions, 132, giving an annual target of 138. This would give a monthly target of 11.5 permanent admissions throughout 2019/20. We have not used just 2018/19 actual performance because:</p> <ul style="list-style-type: none"> <li>• We felt that our 2018/19 performance was an outlying performance and therefore potentially anomalous.</li> </ul>
	Numerator	444	461	
		131	138	

**Please set out the overall plan in the HWB area for reducing rates of admission to residential and nursing homes for people over the age of 65, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.**

	Denominator	29,521	29,935	<ul style="list-style-type: none"> <li>When we set up our local BCF plan we agreed to work to a five year model for performance and benefits which we have been monitoring closely. If we changed the way we calculate our targets it would significantly impact on the benefits that we plan to deliver our local system.</li> </ul> <p>We plan to achieve this by:</p> <ul style="list-style-type: none"> <li>Continuing our Step down and reablement services through our Maximising Independence Function, supporting people to regain and retain skills remaining in their homes longer</li> <li>Continuing our Step Up service which has a clear pathway into reablement</li> <li>Continuing our Integrated Discharge Service at RBFT which aims to reduce delays in hospital which is the</li> </ul>
--	-------------	--------	--------	---

Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population (aged 65+) population projections are based on a calendar year using the 2016 based Sub-National Population Projections for Local Authorities in England;

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

43

#### 8.4 Reablement

		18/19 Plan	19/20 Plan	Comments
Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement / rehabilitation services	Annual (%)	85.0%	87.0%	<p>We achieved an average 87% for 2018/19 against a target of 85% in 2018/19. We have set our target for 2019/20 at 87% based on our outturn 2018/19 performance.</p> <p>We plan to achieve this target through the following:</p> <ul style="list-style-type: none"> <li>continuing to increase investment in reablement both delivered by the Local Authority and by the CCG to make the services more responsive by increasing capacity. We have also increased our investment in Out-of-Hospital services provided by BHFT.</li> <li>reviewing the pathways and processes of all our ICN functions, we have already started implementing a joint triage service for our rehab/reablement services to</li> </ul>
	Numerator	51	52.2	

**Please set out the overall plan in the HWB area for increasing the proportion of older people who are still at home 91 days after discharge from hospital into reablement/rehabilitation, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.**

	Denominator	60	60	triage service for our rehab/reablement services to improve flow and reduce referral delays. <ul style="list-style-type: none"> <li>• supporting a review led by Berkshire Health Foundation Trust of intermediate care services, to support a better service to people that potentially may go to hospital</li> </ul>
--	-------------	----	----	--

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

9. Confirmation of Planning Requirements

Selected Health and Wellbeing Board:

Wokingham

Theme	Code	Planning Requirement	Key considerations for meeting the planning requirement These are the Key Lines of Enquiry (KLOEs) underpinning the Planning Requirements (PR)	Please confirm whether your BCF plan meets the Planning Requirement?	Please note any supporting documents referred to and relevant page numbers to assist the assurers	Where the Planning requirement is not met, please note the actions in place towards meeting the requirement	Where the Planning requirement is not met, please note the anticipated timeframe for meeting it
NC1: Jointly agreed plan	PR1	A jointly developed and agreed plan that all parties sign up to	<p>Has a plan; jointly developed and agreed between CCG(s) and LA; been submitted?</p> <p>Has the HWB approved the plan/delegated approval pending its next meeting?</p> <p>Have local partners, including providers, VCS representatives and local authority service leads (including housing and DFG leads) been involved in the development of the plan?</p> <p>Do the governance arrangements described support collaboration and integrated care?</p> <p>Where the strategic narrative section of the plan has been agreed across more than one HWB, have individual income, expenditure, metric and HICM sections of the plan been submitted for each HWB concerned?</p>	Yes	Tab 2 Cover Tab 4 Strat Nar B(i) Tab 4 A slides 5 & 6 N/A as a single HWB		
	PR2	A clear narrative for the integration of health and social care	<p>Is there a narrative plan for the HWB that describes the approach to delivering integrated health and social care that covers:</p> <ul style="list-style-type: none"> <li>- Person centred care, including approaches to delivering joint assessments, promoting choice, independence and personalised care?</li> <li>- A clear approach at HWB level for integrating services that supports the overall approach to integrated care and confirmation that the approach supports delivery at the interface between health and social care?</li> <li>- A description of how the local BCF plan and other integration plans e.g. STP/ICs align?</li> <li>- Is there a description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010? This should include confirmation that equality impacts of the local BCF plan have been considered, a description of local priorities related to health inequality and equality that the BCF plan will contribute to addressing.</li> </ul> <p>Has the plan summarised any changes from the previous planning period? And noted (where appropriate) any lessons learnt?</p>	Yes	Tab 4 Strat Nar - Section A - Section B(i) - Section C - Section B (i) and C - Section A		
	PR3	A strategic, joined up plan for DFG spending	<p>Is there confirmation that use of DFG has been agreed with housing authorities?</p> <p>Does the narrative set out a strategic approach to using housing support, including use of DFG funding that supports independence at home.</p> <p>In two tier areas, has:</p> <ul style="list-style-type: none"> <li>- Agreement been reached on the amount of DFG funding to be passed to district councils to cover statutory Disabled Facilities Grants? or</li> <li>- The funding been passed in its entirety to district councils?</li> </ul>	Yes	Tab 4 Strat Nar Section B (ii)		
NC2: Social Care Maintenance	PR4	A demonstration of how the area will maintain the level of spending on social care services from the CCG minimum contribution to the fund in line with the uplift in the overall contribution	Does the total spend from the CCG minimum contribution on social care match or exceed the minimum required contribution (auto-validated on the planning template)?	Yes	Tab 3 Summary Tab 4 Strat Narr Section A Tab 5 Income		
NC3: NHS commissioned Out of Hospital Services	PR5	Has the area committed to spend at equal to or above the minimum allocation for NHS commissioned out of hospital services from the CCG minimum BCF contribution?	Does the total spend from the CCG minimum contribution on non-acute, NHS commissioned care exceed the minimum ringfence (auto-validated on the planning template)?	Yes	Tab 3 Summary Tab 5 Income		
NC4: Implementation of the High Impact Change Model for Managing Transfers of Care	PR6	Is there a plan for implementing the High Impact Change Model for managing transfers of care?	<p>Does the BCF plan demonstrate a continued plan in place for implementing the High Impact Change Model for Managing Transfers of Care?</p> <p>Has the area confirmed the current level of implementation and the planned level at March 2020 for all eight changes?</p> <p>Is there an accompanying overall narrative setting out the priorities and approach for ongoing implementation of the HICM?</p> <p>Does the level of ambition set out for implementing the HICM changes correspond to performance challenges in the system?</p> <p>If the current level of implementation is below established for any of the HICM changes, has the plan included a clear explanation and set of actions towards establishing the change as soon as possible in 2019-20?</p>	Yes	Tab 7 HICM		

Agreed expenditure plan for all elements of the BCF	PR7	Is there a confirmation that the components of the Better Care Fund pool that are earmarked for a purpose are being planned to be used for that purpose?	<p>Have the planned schemes been assigned to the metrics they are aiming to make an impact on? Expenditure plans for each element of the BCF pool match the funding inputs? (auto-validated)</p> <p>Is there confirmation that the use of grant funding is in line with the relevant grant conditions? (tick-box)</p> <p>Is there an agreed plan for use of the Winter Pressures grant that sets out how the money will be used to address expected demand pressures on the Health system over Winter?</p> <p>Has funding for the following from the CCG contribution been identified for the area?</p> <ul style="list-style-type: none"> <li>- Implementation of Care Act duties?</li> <li>- Funding dedicated to carer-specific support?</li> <li>- Reablement?</li> </ul>	Yes	Tab 6 Expenditure		
	PR8	Indication of outputs for specified scheme types	Has the area set out the outputs corresponding to the planned scheme types (Note that this is only for where any of the specified set of scheme types requiring outputs are planned)? (auto-validated)	Yes	Tab 6 Expenditure		
Metrics	PR9	Does the plan set stretching metrics and are there clear and ambitious plans for delivering these?	<p>Is there a clear narrative for each metric describing the approach locally to meeting the ambition set for that metric?</p> <p>Is there a proportionate range of scheme types and spend included in the expenditure section of the plan to support delivery of the metric ambitions for each of the metrics?</p> <p>Do the narrative plans for each metric set out clear and ambitious approaches to delivering improvements?</p> <p>Have stretching metrics been agreed locally for:</p> <ul style="list-style-type: none"> <li>- Metric 2: Long term admission to residential and nursing care homes</li> <li>- Metric 3: Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement</li> </ul>	Yes	Tab 8 Metrics
