

1. Smoking status at time of delivery

% of mothers who are smokers at the time of delivery (2018/19)

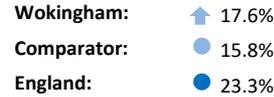

2. Teenage mothers

% of delivery episodes where the mother is aged under 18 years in 2017/18

3. BME Deliveries

% of deliveries to mothers from Black and Minority Ethnic (BME) groups in 2016/17

4. Low birth weight of term babies

% of all live births at term in 2017 with low birth weight (<2500g)

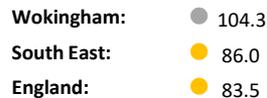

8. Dtap/ IPV/ Hib coverage (1 year)

% of eligible children who received 3 doses of Dtap/ IPV/ Hib vaccination by their 1st birthday (2018/19)

7. Respiratory tract infection admissions aged 1 year

Rate of emergency admissions in infants per 10,000 population (2016/17)

6. Infant Mortality

Rate of deaths in infants aged under 1 year per 1,000 live births (2015 - 17)

5. Breastfeeding prevalence

% of all infants due a 6-8 week check that are totally or partially breastfed (2018/19)

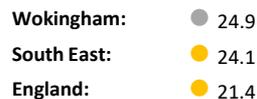

9. MMR – 1st dose

% of children who received one dose of MMR vaccine on or after their 1st birthday and anytime to their 2nd birthday (2018/19)

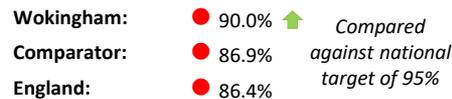

10. Respiratory tract infection admissions 2,3 and 4 years

Rate of emergency admissions in infants per 10,000 population (2016/17)

11. MMR – 2nd dose

For and at any time to 5th birthday (2018/19)

The latest available data is shown at a local authority level and compared against the England figure and the comparator group, least deprived decile (IMD 2015) figures:

- Significantly better
- Significantly worse
- Significantly lower
- No significant difference
- Significantly higher
- Not comparable/Value unknown

Where a national target has been set, data has been compared against this target.

12. School readiness

% of children achieving a good level of development at the end of Year R (2017-18)

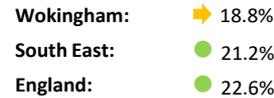

13. Free school meals

% of pupils eligible for and claiming free school meals who attend state funded school (2018)

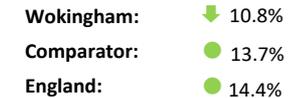

14. Obesity and overweight (Year R)

% of children in Year R who are obese and overweight (2018/19)

15. Pupils with special education needs (SEN)

% of school pupils with special education needs (2018)

19. Sedentary for 7 hours or more per day

% with a mean daily sedentary time in the last week over 7 hours per day (2014-15)

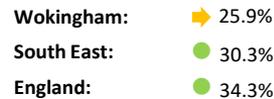

18. Physically Active (At least 1 hour every day in last week)

% physically active for at least one hour per day seven days a week (2014/15)

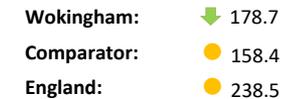

17. Obesity and overweight (Year 6)

% of children in Year 6 who are obese and overweight (2018/19)

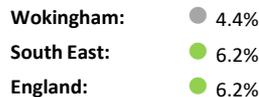

16. First time entrants to Youth Justice System (10-17 year olds)

Rate per 100,000 population (2018)

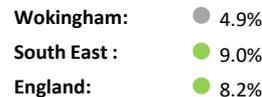

20. Regular drinker of alcohol (every week)

% of 15 year old who have an alcoholic drink 'at least once a week' Way survey (2014-15)

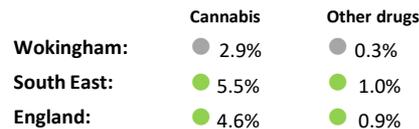

21. Smoking prevalence (current smokers)

% of smoking prevalence at age 15 Way survey (2014-15)

22. Drug Use (in the last month)

% of 15 years old 'who took drugs in the last month' Way survey (2014-15)

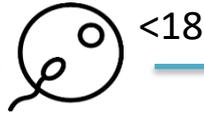

The latest available data is shown at a local authority level. This is compared against the England figure and the comparator group, least deprived decile (IMD 2015):

29. Smoking Prevalence (current smokers)

% of smoking prevalence among persons 18+ years from the APS survey (2018)

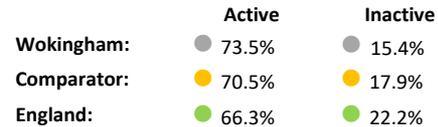

30. Adult drinkers of alcohol (18+ years)

% of adults drinking over 14 units of alcohol a week (2011-14)

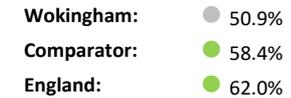

31. Physically active and inactive (19+)

% of adults who are physically active / inactive by CMO recommendations (2017/18)

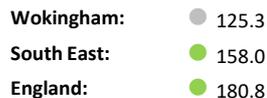

32. Obesity and overweight

% of adults (aged 18+) classified as overweight or obese (2017/18)

36. Preventable Mortality (all ages)

Rate of mortality from causes considered preventable per 100,000 population (2016-18)

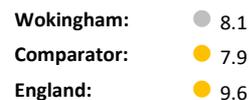

35. Diabetes

Estimated diagnosis rate for people with diabetes aged 17 and over (2018)

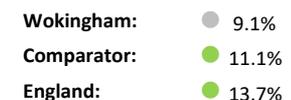

34. Suicide 10 years+

Age-standardised mortality rate from suicide and injury of undetermined intent per 100,000 population (2015/17)

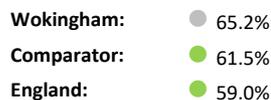

33. Depression or Anxiety 18+ years

% reporting depression or anxiety completing GP Patient Survey (2016/17)

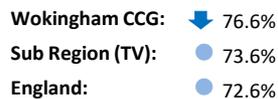

37. Bowel cancer screening (60-74 years)

% of people eligible for bowel screening who were screened (2018)

38. Cervical Screening

% of female, 25-64, attending cervical screening within target period (3.5 or 5.5 year coverage) 2018/19

39. Breast cancer screening (53-70 years)

Proportion of women eligible for screening with a recorded result at least once in the previous 36 months (2018)

The latest available data is shown at a local authority level and compared against the England figure and the comparator group, least deprived decile (IMD 2015) figures

- Significantly better
- Significantly worse

**40. Health related quality of life**

Average health status score for adults age 65 and over (2016/17)

**41. Life expectancy at 65**

Average number of years a person would expect to live (2015 - 17)

**42. Excess winter deaths**

Measured as the ratio of extra deaths from all causes that occur in the winter months (Aug 2014 - Jul 2017) (3 years, All Ages)

**43. Flu vaccine**

% of eligible adults aged 65+ who have received the flu vaccine (2018/19)

75

**47. Preventable sight loss (persons 65+)**

Rate of sight loss due to age related macular degeneration (AMD) in people aged 65+ per 100,000 population (2017/18)

**46. Dementia: Recorded prevalence**

Number of people with dementia recorded as a proportion of people aged 65+ registered at each GP Practice (Dec 2018)

**45. Delayed transfer of care**

Rate of all delayed transfer of care, per 100,000 population aged 18+ (2018/19)

**44. Long term support needs met**

Needs of older adults (65+) met by admission to residential and nursing care homes, per 100,000 population (2017/18)

**48. Hospital admissions due to fall**

Rate of emergency hospital admissions for injuries due to falls in people aged 65+ per 100,000 population (2017/18)

**49. Hip fractures (65+)**

Rate of emergency admissions for fractured neck of femur per 100,000 population (2017/18)

**50. Cardiovascular Disease**

Rate of deaths from cardiovascular disease among people aged 65 and over (2016/18)

The latest available data is shown at a local authority level.

This is compared against the England figure and the comparator group, least deprived decile (IMD 2015), or South East region:

-  Significantly better
-  Significantly worse
-  No significant difference
-  Not comparable/Value unknown
-  Significantly higher than England

Where a national target has been set, data has been compared against this target.
