SUMMARY OF REPORT

Background

The Wokingham Wellbeing Strategy was developed in 2018 with three clear priorities to create healthier and resilient communities. The overarching indicators are mostly based on the Public Health Outcomes Framework, social care and health indicators that are measured regularly. Short term measurable were presented to the August Board and the Public Health team have continued to work with key stakeholders, an update of progress to date can be found in Appendix B.

The accompanying presentation to this paper (Appendix A) outlines the progress that has been made to date on the forming of partnerships to establish three Action Groups. Despite COVID-19 progress has been made and remains within the original timescales for each of the three priority areas. To ensure the Board have oversight on the progress, the Board members are specifically asked to:

- To review the progress to date for each of the three Action Groups, as outlined in the accompanying presentation (Appendix A) and the next steps.
- To invite input from Board members on these actions groups and progress to date.
- To note the summary of progress captured to end of November 2020, these short summary reports will remain in place and until formal reporting through the Wellbeing Board Action Groups is implemented (Appendix B).

Despite COVID-19 and the unexpected national lockdown which occurred since the Board last met - progress has been achieved on the delivery of shared objectives as evidenced in Appendix B. There are some services, particularly local leisure services, who have had to focus on implementing changes in accordance with Governance guidance and therefore some objectives are on hold. Preparations are being made to resume services in line with guidance for local authorities in tier 2.

Analysis of Issues, including any financial implications

There are no financial implications to the report presented here, however this builds upon the papers presented in August outlining how the tier 2 healthy weight programme will be incorporated into the broader work of the physically active communities Action group. This financial commitment for Tier 2 weight management services is a planned cost accounted for in the Public Health budget.

Partner Implications
The success of the Action Groups is dependent on meaningful engagement and support through active membership where appropriate to each partner agency.
