

<b>TITLE</b>	<b>Treasury Management Strategy 2021/24</b>
<b>FOR CONSIDERATION BY</b>	Audit Committee on 3 February 2021
<b>WARD</b>	None Specific;
<b>LEAD OFFICER</b>	Deputy Chief Executive - Graham Ebers

## **PURPOSE OF REPORT (INC STRATEGIC OUTCOMES)**

Agree the treasury management procedures, limits, and objectives for 2021/22.

Effective and safe use of our resources to deliver service improvements and service continuity through the management of the council's cash flow and investments while funding the capital programme.

## **RECOMMENDATION**

Audit Committee is asked to recommend and approve the following:

1. to support this report and recommend it to Executive on 18 February 2021. (Executive will then be asked to recommend the report to Council).
2. the Treasury Management Strategy as set out in Appendix A including the following additional appendices;
  - Prudential Indicators (Appendix B)
  - Annual Investment Strategy 2021/22 (Appendix C)
  - Minimum Revenue Provision (MRP) policy (Appendix D)
3. to note the cumulative financial impact on the Council of its borrowing activities equates to a net benefit for the taxpayer per band D of £13.64 at end of 2021/22 and noting the net benefit increase to £62.86 at the end of 2023/24.

## **SUMMARY**

The Chartered Institute of Public Finance & Accountancy (CIPFA) 2018 Prudential Code sets out the requirements in relation to the setting of a Treasury Management Strategy within Local Authorities. The key objectives of the Code are to ensure, within a clear framework, that local authorities' capital investment plans are affordable, prudent and sustainable.

Under the prudential system, individual local authorities are responsible for deciding the level of their affordable borrowing, having regard to CIPFA's Prudential Code, which has been given legislative backing. Prudential limits apply to all borrowing, qualifying credit arrangements and other long-term liabilities – whether supported by government or entirely self-financed. The system is designed to encourage authorities that need and can afford to undertake capital investment to do so within a robust framework.

Using the guidance from the Prudential Code, every year the Council produce a **Treasury Management Strategy** and a **Capital Strategy**. Both strategies are closely linked and also support the Medium Term Financial Plan. The Capital Strategy is considered in a separate report.

This report outlines the expected treasury activity for the forthcoming year and includes prudential indicators relating specifically to Treasury Management for the next three years. Further reports are produced during the year: a mid-year monitoring and a year-end outturn.

A key requirement of this report is to explain both the risks and the management of the risks associated with the treasury management activity.

### **Treasury Management Strategy**

The Executive are asked to recommend the Treasury Management Strategy as set out in Appendix A including the following appendices;

- Prudential Indicators (Appendix B)

These are primary indicators designed to ensure the key objectives of the Prudential Code are met and that local authorities' capital investment plans are affordable, prudent and sustainable; that treasury management decisions are taken in accordance with good professional practice.

These are summarised below and consist of limits and performance indicators for categories of Affordability and Prudence.

<b>Prudential Indicators</b>	<b>2021/22</b>	<b>2022/23</b>	<b>2023/24</b>
	<b>£m</b>	<b>£m</b>	<b>£m</b>
<b><u>Affordability</u></b>			
<b><u>Limits</u></b>			
Authorised Limit	729	852	905
Operational Boundary	677	789	838
<b><u>Performance Indicators</u></b>			
Gross external borrowing – General Fund + HRA	427	529	580
% of internal borrowing to CFR	29%	30%	25%
Ratio of financing costs to net revenue stream	1.0%	0.7%	0.6%
Ratio of financing costs to net revenue stream HRA	16.5%	16.1%	15.1%
<b><u>Prudence</u></b>			
Maturity structure of borrowing	See Appendix C		

In relation to % of internal borrowing to CFR, although no set % is advised in the Prudential Code, the guideline across the industry is between 25% and 35% and depends very much on each local authorities circumstances and approach. Wokingham will aim to work within the guidelines of 25% and 35%.

The ratio of financing costs to net revenue stream calculation doesn't include any surplus income generated from assets which the Council have borrowed for. Although a statutory indicator, it is important to consider all the income as highlighted in the table below on the net benefit to the taxpayer.

- Annual Investment Strategy 2021/22 (Appendix C)

This sets out the investment parameters that the Council treasury service will work within when making decisions. The CIPFA Code and MHCLG Guidance require the Council to invest its funds prudently, and to have regard to the security and liquidity of its investments before seeking the highest rate of return, or yield. The Council's investment priorities will be security first, liquidity second, then return.

- Minimum Revenue Provision (MRP) policy (Appendix D)

The policy in which the Council set aside a prudent revenue provision each year to repay historic capital spend also known as the capital financing requirement.

### **Net benefit to taxpayer**

The executive are asked to note and recommend to Council to note the cumulative financial impact on the Council of its borrowing activities equates to a net benefit for the taxpayer per band D of £13.64 at end of 2021/22 as shown in the table below. Over the medium term, these benefits will increase as the housing, local economy and regeneration projects deliver more surplus benefits over and above financing costs.

	2021/22	2022/23	2023/24
Net Annual Benefit £m	£1.0m	£3.9m	£4.7m
Divide by Council Tax Base (no. of band D equivalent properties)	73,297.1	74,030.1	74,770.4
<b>Benefit per band D property - £</b>	<b>£13.64</b>	<b>£52.68</b>	<b>£62.86</b>

## BACKGROUND

The Council operates a balanced budget, which broadly means cash raised during the year will meet its cash expenditure. Part of the treasury management operations is to ensure that the Council has sufficient available cash to manage its day-to-day operations. By planning this daily cashflow the treasury service is able to invest short term surplus balances in suitable low-risk counterparties, which provide security of the investment and the appropriate liquidity before considering investment return.

The second main function of the treasury management service is the funding of the Council's capital plans. These capital plans provide a guide to the borrowing requirement of the Council, essentially the longer-term cash flow planning to ensure the Council can meet its capital spending operations. This management of longer-term cash may involve arranging long or short-term loans or using core balances. On occasion, debt previously drawn may be restructured to achieve a better financial position.

Details of the Council's capital spend plans are set out in the **Capital Strategy** document. As capital spend impacts on treasury management, key highlights from the capital strategy are included in the treasury management strategy (Appendix A) and summarised below;

	2021/22 £m	2022/23 £m	2023/24 £m	Total £m
Roads and Transport	94.0	54.3	11.3	159.6
Housing, Local Economy & Regeneration	72.6	64.6	18.8	156.0
Climate Emergency	22.2	27.2	21.6	71.0
Environment	12.1	5.2	6.0	23.3
Internal Services	3.9	4.6	4.1	12.6
Children Services and Schools	3.4	3.1	5.4	11.9
Adult Social Care	7.2	2.9	1.0	11.1
<b>Total Capital Programme 2021/22 to 2023/24</b>	<b>215.4</b>	<b>161.9</b>	<b>68.2</b>	<b>445.5</b>

The capital programme proposed for the next three years is prudent and affordable as per the principles of the treasury management code of practice. The proposed funding of the programme is summarised below;

	2021/22 £m	2022/23 £m	2023/24 £m	Total £m
Supported borrowing	(165.0)	(95.2)	(32.2)	(292.4)
Developer contributions (S106 / CIL)	(26.4)	(34.2)	(8.4)	(69.0)
Capital grants	(12.1)	(13.8)	(11.5)	(37.4)
Other contributions	(6.3)	(5.8)	(6.1)	(18.2)
General fund borrowing	(3.5)	(3.6)	(3.6)	(10.7)
Additional general fund borrowing*	0.0	(6.7)	(3.7)	(10.3)
Capital receipts	(2.2)	(2.6)	(2.7)	(7.5)
<b>Total</b>	<b>(215.4)</b>	<b>(161.9)</b>	<b>(68.2)</b>	<b>(445.5)</b>

\* Additional general fund borrowing is currently the funding gap for years 2 and 3. Through the budget process, the aim will be to reduce to zero through seeking additional income and/or reducing expenditure.

## **ANALYSIS OF ISSUES**

### **Borrowing Position**

An important part of the treasury management strategy is to highlight the level of borrowing need. This is known as the capital financing requirement (CFR) and is an accounting concept which monitors how much capital expenditure has been incurred but not yet paid for.

The housing revenue account also has a CFR which is shown in Appendix A. This CFR is ringfenced and repaid through tenants rental income. This is estimated to be £83m for 2021/22.

A major source of funding for the Council’s capital programme is borrowing. This is described in two forms, supported borrowing and general fund borrowing. A significant part of the Council’s capital programme is either self financing or makes a surplus where the income generated is greater than the cost of financing and therefore is available to fund other council services. These are referred to as “supported borrowing”. General fund borrowing is funded through existing base budget and supports general investment to maintain Council assets and continue to provide services to customers and residents.

A summary of the general fund CFR for the next three financial years is estimated below.

	Supported Borrowing			General Fund Borrowing		
	21/22	22/23	23/24	21/22	22/23	23/24
	£m	£m	£m	£m	£m	£m
Opening balance	310	415	513	110	114	120
Expenditure in year	159	118	61	8	10	8
Repayments in year	(54)	(20)	(20)	(4)	(4)	(4)
<b>Closing balance</b>	<b>415</b>	<b>513</b>	<b>554</b>	<b>114</b>	<b>120</b>	<b>124</b>

In the table above, it is important to note, the “expenditure in year” row is an estimate of actual capital expenditure to be incurred in the financial year and includes the impact of carry forwards from the previous year and carry forwards into future years based on historic trends. This ensure a more accurate CFR position which is important when considering investment and borrowing decisions. It will therefore be different to the amount identified as funding earlier in the report in the capital funding tables.

It is important to note that the CFR balance does not reflect the level of debt the Council holds. Where the Council hold surplus balances such as reserves, unspent grants and working capital, this avoids the need to borrow externally saving on interest costs. This is known as internal borrowing. Furthermore, it is important to take into account any treasury

investment balances when looking at external debt to understand a more accurate debt figure.

The table below sets out the annual cost of serving this borrowing and the income generated through the assets which have been borrowed for. Over the next three years, the income generated from these assets will give **an increasing net benefit to the taxpayer.**

	2021/22	2022/23	2023/24
	£m	£m	£m
General Fund – MRP Repayment and Interest	8.3	8.2	8.3
<u>Less</u> contributions towards financing costs from following areas:			
- Treasury investments	(1.4)	(1.1)	(1.2)
- Housing, Local Economy and Regeneration	(4.8)	(6.4)	(6.5)
Net Annual Financing Cost	2.1	0.7	0.6
<u>Include</u> additional income over and above the contributions shown above:			
- Commercial investments	(2.2)	(3.5)	(3.8)
- Town centre regeneration	(0.9)	(1.1)	(1.5)
<b>Net Annual <u>Benefit</u> to the taxpayer</b>	<b>(1.0)</b>	<b>(3.9)</b>	<b>(4.7)</b>

Net Annual Benefit £m	£1.0m	£3.9m	£4.7m
Divide by Council Tax Base (no. of band D equivalent properties)	73,297.1	74,030.1	74,770.4
<b>Benefit per band D property - £</b>	<b>£13.64</b>	<b>£52.68</b>	<b>£62.86</b>

## Repayment Of Borrowing

As highlighted previously, the Council continue to invest significant amounts into the capital programme generating assets such as roads, schools, housing, regeneration properties and many more. The graph below sets out the expected repayment of this debt as well as the asset value generated.

The graph includes three key lines in reference to debt;

- Capital financing requirement (CFR) - It is a statutory accounting calculation that shows how much capital expenditure has historically been incurred but not yet paid for.
- External debt – this is the actual amount borrowed. The difference between CFR and external debt is referred to as internal borrowing.

- Net indebtedness – this is external debt less treasury investment balances. It is important that these are considered together as cash investments could be used to repay external debt.

The Council are expecting debt to rise over the next three years in line with the capital programme and then it is expected to reduce over time as income is generated from these projects and cost savings are realised.

CFR and external debt will reduce as borrowings are repaid through income and will reach a point in time when debt is fully repaid and the ongoing income will be transferred to benefit the general fund.

The graph is based on general fund only and excludes HRA as this is ringfenced.

The asset value used in the graph above are calculated using the total asset value from the Council’s balance sheet, and an estimate of capital expenditure over the next three years. This new methodology is different to the asset value calculation used last year whereby only the asset values from new borrowing was included. This new methodology is more accurate and reflects all asset values that either have been or will be funded from an element of borrowing.

The above graph is summarised in the table below. After the first three years, the expectation is that the CFR, external debt and net indebtedness will start to reduce as repayments of borrowing start to increase, capital receipts and developer funding are received.

	2021/22	2022/23	2023/24	2024/25	2025/26
	£m	£m	£m	£m	£m
CFR (a)	523	626	671	650	625
Less internally funded (b)	171	171	166	169	171
External debt – general fund only (c = a+b)	352	454	505	481	454
Less treasury investments (d)	93	93	120	111	120
<b>Net indebtedness (e = c – d)</b>	<b>259</b>	<b>362</b>	<b>385</b>	<b>370</b>	<b>334</b>

### **Key Changes to the Strategy**

The Council is recommending changes to the investment strategy as explained on page 5 of appendix A. The changes are designed to enhance the options available to the treasury team for daily management of cash funds, short term investing and borrowing.

These include;

- The option to be able to open a deposit account, with our transactional bank provider which will increase capacity to invest money in the short term (increase liquidity), particularly during current times of cashflow uncertainty.
- To increase the money market (liquid funds) limit from £5m to £10m which will increase capacity to invest money in the short term (increase liquidity), particularly during current times of cashflow uncertainty.
- The option to issue a local authority bond to raise borrowing as an alternative to traditional markets such as PWLB.

### **FINANCIAL IMPLICATIONS OF THE RECOMMENDATION**

***The Council faces severe funding pressures, particularly in the face of the COVID-19 crisis. It is therefore imperative that Council resources are focused on the vulnerable and on its highest priorities.***

	How much will it Cost/ (Save)	Is there sufficient funding – if not quantify the Shortfall	Revenue or Capital?
Current Financial Year (Year 1)	• N/A	Yes	Revenue
Next Financial Year (Year 2)	• Benefit per band D property - £13.64	Yes	Revenue
Following Financial Year (Year 3)	• Benefit per band D property - £52.68	Yes	Revenue

<b>Other Financial Information</b>
Capital spend plans are outlined in further detail in the Capital Strategy which is available within the agenda pack for the 18 February 2021 Executive meeting and will be available on the Council's website once approved.
