## RECOMMENDATIONS

- 1) Wellbeing Board to review progress updates from three established **Strategy into Action Groups**: outlined in the accompanying presentation (Appendix A), setup to deliver on Wellbeing Board objectives.
- 2) To invite further input, queries and comments from Board members on Action group progress to date.
- 3) To note the summary of progress captured during December 2020 (and first weeks of Jan 2021), these short summary reports (Appendix B) will remain in place and until formal reporting is implemented.

## SUMMARY OF REPORT

### Background

The Wokingham Wellbeing Strategy was developed in 2018 with three clear priorities to create healthier and more resilient communities. The overarching indicators are mostly based on the Public Health Outcomes Framework, social care and health indicators that are measured regularly. Short term measurable were presented to the Wellbeing Board in August 2020 and the Public Health team have continued to work with key stakeholders; an update of progress to date can be found in Appendix B.

Since the board last met in December the country has entered a third national lockdown, more prolonged than that in November. However, progress has been achieved on the delivery of shared objectives as evidenced in Appendix B.

There are some providers, particularly local leisure services, who have had to pause face-to-face support in accordance with Government guidance. Preparations are being made to resume service delivery in line with expected local restrictions applied via the government's COVID tier system.

The accompanying presentation to this paper (Appendix A) outlines the progress that has been made to date on the establishment of three Action Groups. Despite COVID-19 progress has been made and remains within the original timescales for each of the three priority areas.

To ensure the Board have oversight on the progress, the Board members are specifically asked to:

- 4) To review the progress to date for each of the three Action Groups, as outlined in the accompanying presentation (Appendix A) and the next steps.
- 5) To invite input from Board members on these actions groups and progress to date.
- 6) To note the summary of progress captured during December 2020 (and first weeks of Jan 2021), these short summary reports (Appendix B) will remain in place and until formal reporting is implemented.

## Analysis of Issues, including any financial implications

There are no financial implications to the report presented here, however this builds upon the papers presented in August 2020 - outlining how the tier 2 healthy weight programme will be incorporated into the broader work of the physically active communities Action group. This financial commitment for Tier 2 weight management services is a planned cost accounted for in the Public Health budget.

<b>Partner Implications</b>
The success of the Action Groups is dependent on meaningful engagement and support through active membership where appropriate to each partner agency.
