SUMMARY OF REPORT

Background

The Wokingham Wellbeing Strategy was developed in 2018 with three clear priorities to create healthier and resilient communities. In the last year, 'business as usual' activity conducted by Wellbeing Board partners has had to be delivered through the lens of Covid-19 which has influenced activity and changed the way we work. Covid-19 has highlighted health inequalities and has dominated the lives of Wokingham residents, our partners and Wokingham Borough Council.

Despite this and associated pressures, progress has been made bringing together partners with a focus on solidifying the great work already established within the Borough, identifying further opportunity for collaborative projects to address recognised need and to develop a regular reporting process for the Wellbeing Board.

The accompanying report to this paper (Appendix A) outlines the work and achievements for the 2020/21 year. Updates in the following areas have been addressed within the report:

1. Health and Wellbeing Context Across 2020/2021 – Local Outbreak Engagement Board
