Hi Karen

Initially TVP agreed to this TEN, in my absence. TVP were made aware of the Objection by EHO, and due to the lack of engagement from the applicant, I am now confirming TVP are objecting to this event, as per my submission.

Thanks and stay safe.

### THOMAS JAMES SEWELL

I am Gary Clarke Licensing Officer for Thames Valley Police, covering Bracknell, Wokingham and West Berkshire. I am submitting this document in support of Wokingham Borough Council's request for a Hearing to discuss the application for a TEN, at the above location, on the 30<sup>th</sup> July 2022, with licensable activities to run from 12:00 until 04:00. The only information on the application form is that this is a Live music event to include the sale of alcohol and food.

With the event due to run to 04:00 and into a Sunday morning , I fully support the request for the above organiser to submit further information to satisfy concerns around the potential for noise complaints from local residents. My understanding is that WBC have tried to contact the organiser for details, but he has failed to respond. This in itself gives me further concerns over what may transpire.

From Police records, the only thing of note in relation to the applicant, is an intelligence report from July 2020, which states that he and his girlfriend have posted items on Facebook, including a picture that suggests he is involved in the Rave scene. I don't think this is sufficient evidence for the Police to object out right to the application. However should there be any disorder at this event Police resources would be stretched given the time the event is due to finish and indeed the date involved.

At this point in time, due to the lack of details regarding the event and the applicant failing to engage with the Council, I currently request that this application be declined by the Committee.

---

As the previous event was some 8 years ago and with a different promoter, I don't believe TVP have sufficient grounds to object to the TEN on the grounds of crime and disorder. I do however support the objections raised by EHO, especially given that the applicant has not been forthcoming with any details for the event. I will in the interim get further research done on the applicant and EOM Music to see if this raises any further concerns.

All I have at present is intel in 2020 which does state the applicant is connected to the Rave scene and had posted images on Facebook.

Thanks and stay safe.
