

# Berkshire West Autumn COVID-19 Vaccination Plan Sept – Dec 2022

93

Prepared by Eiliis McCarthy, Jo Reeves and Andrew Price

Adopted by the Berkshire West Vaccination Action Group on 25 August 2022

This live document was last updated on 12 September 2022

- The Autumn Covid Vaccination Programme commences on 5th September with PCNs beginning to visit care homes and housebound residents.
- Vaccine supply will be limited nationally for the first four weeks.
- The National Booking system opens to over 75s and self-declaring health and social care workers from 12th September.
- After the first four weeks, it is expected that all remaining cohorts will be able to book their vaccine on the National Booking System.
- Overall system capacity to deliver vaccines exceeds the expected demand.
- Oxford Health continues to provide coverage to all cohorts for all doses from the Broad St Mall.
- Inequalities remains a key focus and we will be able to deploy the Health on the Move Van to mitigate the inequalities that we identify.

## **Key Updates w/c 5th September**

- Some PCNs have received vaccine deliveries and have begun to visit care homes.
- Discussions are ongoing at a national level regarding when and at what pace to open the National Booking System to wider cohorts.
- BW Inequalities Group first meeting held on 7th September. This group will begin developing the Inequalities Plan.
- We have had confirmation on the resource for the outreach and 5-11s sites for Autumn. A timetable is being worked and can be shared when available.

Appendix 4 – Cohorts and Dose Eligibility

# 1. Background

- Delivery of the **National Covid Vaccination Programme** has been one of the biggest challenges faced by the NHS. It has required an immense amount of collaboration with local and system partners, armies of volunteers, and the tireless efforts of clinicians and admin staff throughout the many arms of the NHS. We should all be very proud of what we have achieved so far.
- In Berkshire West, we have largely enjoyed vaccination take-up at or above national and regional averages. Nonetheless we have variation in take-up across our Place. Throughout the Covid Vaccination Programme, we have continuously needed to **respond to the challenges** posed by logistics, workforce capacity, rurality and entrenched health inequalities.
- We have also witnessed the impacts of **low vaccine confidence**. A survey completed by the Reading and West Berkshire Healthwatches provided useful recommendations which form part of our emerging inequalities plan for Autumn 2022.
- For Autumn 2022 the aspiration in Berkshire West is to continue to build on our success. It is proposed that the Vaccination Action Group adopt the following core principles to guide our plan:
  - Continue to provide a **strong core offer** of covid vaccination with a **diverse provider mix**
  - Provide **agile support to communities at risk of health inequalities** to access a covid vaccination in a way that's right for them
  - Maximise opportunities to **improve efficiency** through collaboration and **Make Every Contact Count**

## 2. JCVI and NHS England Guidance

### Evergreen Offer

- Systems need to continue to deliver a Covid-19 vaccination offer, with a focus on addressing inequalities and reducing variation, which as a minimum should ensure:
  1. A vaccination offer to all children aged 5 – 11 years.
  2. A continued vaccination offer to those who have recently become eligible, including: at risk 5-11s, 12-15s, and newly at risk groups such as those who are pregnant, eligible severely immunosuppressed and their families or households.
  3. Continuous community engagement to improve confidence and promote uptake supported by appropriate access to vaccination.
  4. Appropriate access to the overseas vaccine record validation service to meet local demand.

### Autumn Boosters

- The government have accepted final JCVI advice which states the following people should be offered a COVID-19 booster vaccine this autumn:
  - residents in a care home for older adults and staff working in care homes for older adults
  - frontline health and social care workers
  - all adults aged 50 years and over
  - persons aged 5 to 49 years in a clinical risk group, as set out in the Green Book
  - persons aged 5 to 49 years who are household contacts of people with immunosuppression
  - persons aged 16 to 49 years who are carers, as set out in the Green Book.
- JCVI advise that deployment of a **single type of vaccine** throughout the autumn booster programme promotes simplicity and is therefore desirable.

### Co-administration with 'Flu Vaccine

- Systems *should* maximise opportunities to co-promote and co-administer vaccinations where possible and clinically advised (eg COVID-19, flu and pneumococcal), especially where this improves patient experience and uptake, but this should not unduly delay administration of either jab.
- We will work with the leads for flu planning to identify opportunities for coadministration and joint promotion of the vaccines.

### 3. Expectations, Planning Assumptions and Challenges

#### Expectation

- At least 75% of eligible patients should take up the offer of a covid vaccination.
- Access to a covid vaccination should be within a 30 minute drive.
- Care home and housebound patients should receive their vaccines in the first seven weeks of the programme.

#### Planning Assumptions

- Patient demand is likely to be lower than in previous rounds of the programme.
- Vaccine supply and site capacity will meet patient demand.
- The aspiration to deliver the vaccine as locally as possible will need to be balanced with achieving value for money from the public purse.

## Challenges

### Children

- Not all sites are assured to provide vaccines to under 16s. This means that access for patients aged under 16 eligible for an Autumn booster (for example because they are a household contact of a patient with immunosuppression) need to be understood.
- Due to assurance process and cohorts, the location for whole family vaccination will be limited to the Broad St Mall.
- Positively, BOB is working with School Imms Teams to identify resource to vaccinate CEV children in SEN settings.

### Booking

- The majority of PCN sites are implementing local booking systems, meaning they will only be offering vaccine to their own patient lists. As a result, we will need to understand access for patients not covered offered a vaccine by their own practice. While the default option will be to book at a pharmacy or the mass vaccination centre using the National Booking System, we will need to identify and mitigate any access barriers in order to meet take-up targets, such as with outreach services.

### Surge

- “Surge” means an operational response for the management of a rapid short-term increase in capacity as a consequence of a new variant or a specific instruction to vaccinate or revaccinate a defined population. It is a system change in line with JCVI Guidance to ensure the defined population in England is offered and has access to a Covid 19 vaccination.
- Where there is, in the reasonable view of the NHS England, a requirement to increase capacity at pace to respond to a Surge, providers shall agree with the Commissioner (NHSE) their role in the system wide response to the Surge, both in terms of increased volume and rapid timeframe.
- The BOB Operational Executive confirmed that the current surge plan is for existing sites to work at maximum capacity. The Berks West Vaccination Action Group will commence complementary planning should surveillance of covid rates indicate rising infection levels.

## 4. Provider Mix

In Berkshire West, and indeed nationally, a **diverse provider mix** continues to be essential in achieving good access to the covid vaccination.

- **PCN groupings**

- Groups of practices, known as PCNs, remain essential in the Programme particularly to ensure that the most vulnerable, including care home residents, housebound patients and the immunosuppressed, are offered a vaccine ahead of other patient groups.
- 16 out of 17 PCNs in Berkshire West have opted in to deliver Covid Vaccinations to these most vulnerable groups.
- Alternative providers will need to be identified to cover care home and housebound patients for non-participating PCNs. This could be Oxford Health or PCNs can subcontract to pharmacies or other PCNs.

- **Community Pharmacy**

- Pharmacies are at the heart of their communities and provide a range of primary care services. They have been an integral part of the flu vaccination campaign for some time.
- 14 community pharmacies have opted in to deliver the Covid Vaccination in Berkshire West, enabling greater access to the vaccine closer to where people live.

- **NHS Trusts**

- **All acute trusts** have been expected to deliver vaccinations to their staff as well as specific groups of the most vulnerable patients. **All non-acute trusts** must offer vaccination to their staff and should either vaccinate themselves or direct staff elsewhere.
- RBFT are vaccinating their own staff and some vulnerable inpatients. BHFT are vaccinating their own staff.

## 4a. Provider Mix (continued)

- **Oxford Health**

- Oxford Health continues to operate a mass vaccination centre from **Broad St Mall in Reading**. It is open Thursday – Monday, 9am to 5pm. Appointments can be booked online via the National Booking System or by calling 119.
- The Vaccination Centre is assured for all vaccine types, all vaccine cohorts, including children aged 5-11s and is accessible and convenient for the local population.
- There is also access to the overseas vaccine record validation service.
- Oxford Health continue to offer **outreach** in community venues to address geographical gaps in provision. These include Wokingham Library and The Croft Field Centre in Hungerford.
- Oxford Health will also deliver vaccinations for 5-11s at community sites in Wokingham, Reading and West Berkshire.
- The **Health on the Move Van** and **Pop-Ups** are also managed and staffed by Oxford Health. 50 days of staff time are available in Autumn/ Winter across Berkshire West. Deployment of this service will form part of our **Inequalities Plan**.

# 5. Locality Coverage

102

Get help from the SHAPE team

## 5a. Locality Coverage – West Berkshire

- All PCNs are covering older people's care home residents, housebound and immunosuppressed patients.
- There are three contracted pharmacies, two of which are high volume sites. There is also another pharmacy which has expressed interest in providing covid vaccines.
- There is a geographical gap in coverage around Hungerford. As mitigation, Oxford Health will continue to offer an outreach service in Hungerford one day per week.
- Oxford Health will continue to offer a service to 5-11 year olds one day per fortnight. A location has been identified and a timetable will be confirmed in due course.
- Appointments for primary doses (the 'evergreen' offer) are available at the Broad St Mall Mass Vaccination Centre. The Health on the Move service will be deployed to offer primary doses to targeted communities at risk of inequalities in the locality.
- Access to Autumn Boosters for eligible 12-17 year olds is available at the Broad St Mall Mass Vaccination Centre. Investigations are being made into any further provision needed in the locality.
- Nabbs Lane Pharmacy in the Kennet Centre (Newbury) have highlighted a risk that their ability to deliver might be impacted by increased estates costs. This has been escalated to SVOC. The situation is being monitored and no further action is required at this time.

## 5b. Locality Coverage - Reading

- All PCNs except for Reading West are covering older people's care homes, the housebound and the 18+ immunosuppressed. BOB is currently seeking a solution to cover Reading W care home residents and housebound patients.
- There are 7 contracted pharmacies and 2 who have applied but not yet been assured. There is good geographical coverage.
- Oxford Health will continue to offer a service to 5-11 year olds one day per fortnight. A location has been identified and a timetable will be confirmed in due course.
- Appointments for primary doses (the 'evergreen' offer) are available at the Broad St Mall Mass Vaccination Centre. The Health on the Move service will be deployed to offer primary doses to targeted communities at risk of inequalities in the locality.
- Access to Autumn Boosters for eligible 12-17 year olds is available at the Broad St Mall Mass Vaccination Centre. Investigations are being made into any further provision needed in the locality.
- Discussions are currently underway with Oxford Health regarding the vaccination to be held on the HOMV outreach offer which will determine whether only boosters can be given or evergreen vaccinations

## 5b. Locality Coverage - Wokingham

- All PCNs are covering older people's care home residents and housebound patients.
- There are three contracted pharmacies, either medium or low volume sites.
- As mitigation for the limited coverage by pharmacies, Oxford Health will continue to offer an outreach service from Wokingham Library (or similar) two days per week.
- Oxford Health will continue to offer a service to 5-11 year olds one day per week.
- Appointments for primary doses (the 'evergreen' offer) are available at the Broad St Mall Mass Vaccination Centre. The Health on the Move service will be deployed to offer primary doses to targeted communities at risk of inequalities in the locality.
- Access to Autumn Boosters for eligible 12-17 year olds is available at the Broad St Mall Mass Vaccination Centre. Investigations are being made into any further provision needed in the locality.

## 6. Inequalities

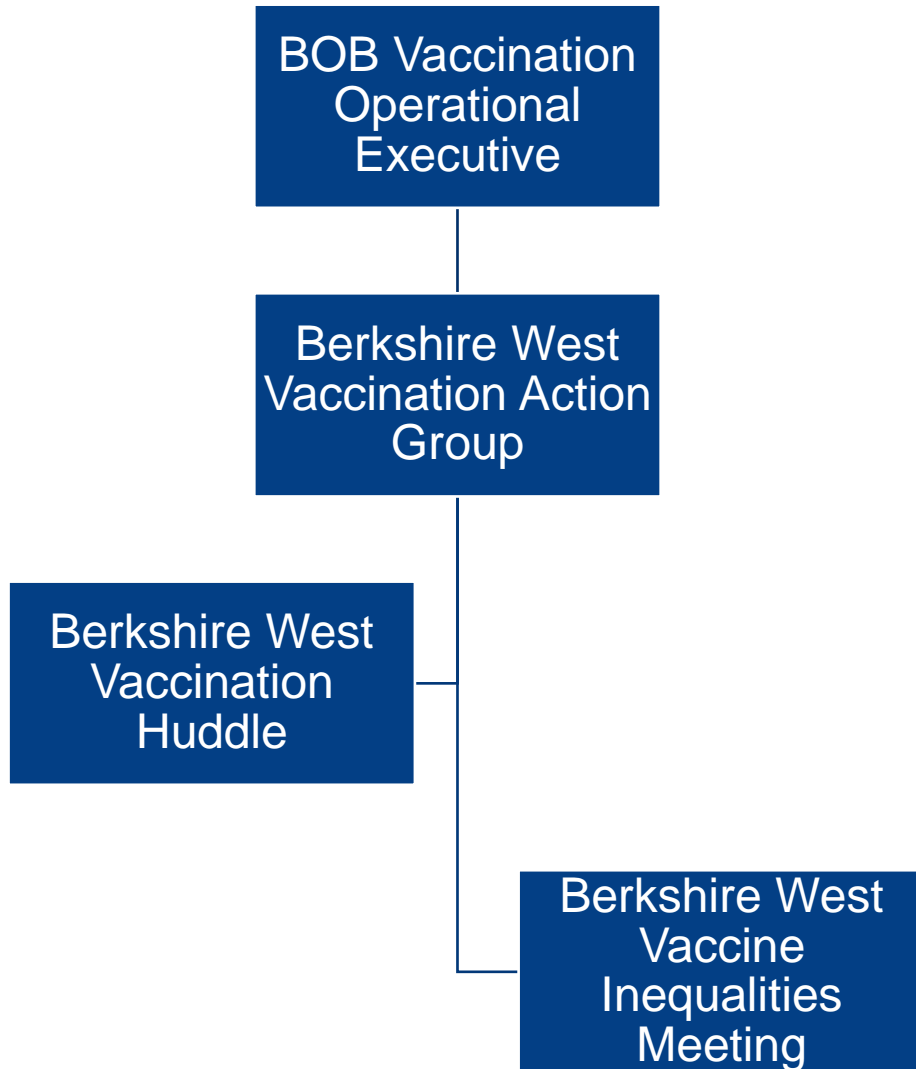

- The Berkshire West Vaccine Inequalities Group will meet fortnightly. Its purpose will be to:
  - Conduct a review across the three localities to identify
    - Evergreen vaccination access gaps
    - Access gaps for Autumn Booster
    - Fortnightly data reviews
  - Develop a Plan for use of **HOMV and Outreach** which fulfils the following needs
    - Engagement with each of the 3 localities
    - Equitable use based on evidence of clear need
    - Resourcing in place to support HOMV events
    - Review of MECC support provided by RBFT and Public Health and resources required to continue
    - Raise awareness and promote vaccine access points / pop-up and / or walk in vaccination clinics to key populations
  - Share the learning from the **Reading Community Vaccine Champion** to identify
    - Resourcing of vaccine champions post October 22
    - Development of role of vaccine champions to support MECC and other health inequalities
    - Good practice that can be replicated in other localities
    - Development of existing culturally competent and straightforward information in range of languages and audience suitable formats.
  - Use recommendations of Healthwatch Vaccine Confidence Surveys to underpin planning, including:
    - Information about side effects
    - Using language of vaccine confidence, rather than hesitancy
    - Continued engagement with people who have not had a vaccine, particularly people from ethnically diverse communities
    - Involve culturally appropriate staff and champions
- Planning discussions are taking place with system partners across the three localities to establish **community engagement needs** with clear resourcing

## 7. Communications Plan

- A **Communications Plan** is being developed across BOB to fulfil the following needs:
  - Clear information to be available for patients and professionals about who is eligible for an Autumn Covid booster, when and how they will be invited to book and where the locations for vaccination delivery are.
  - Clear information to be available for patients and professionals about how and where people who have never had a vaccine, or who have not had a complete course, may access further vaccine doses. (This is known as the evergreen offer.)
  - Information should be available in a number of languages and formats such as social media graphics, videos and flyers.
  - Opportunities to make use of partner organisations' communications channels, including social media and newsletters, are maximised.
  - Able to respond in an agile way to feedback arising from community engagement.
- The Plan has been drafted and is being reviewed by Place leads before onwards sharing.

# 8. Governance and Monitoring

108

**BOB Vaccination Operational Executive**

Provides system leadership for the Covid Vaccination Programme  
Meets weekly  
Is attended by programme leads and place leads for the ICB

**Berkshire West Vaccination Action Group**

Provides place leadership for the Covid Vaccination Programme  
Meets fortnightly  
Is attended by ICB officers, LA officers, provider reps and VCSE reps

**Berkshire West Vaccination Huddle**

Coordinates activity agreed by BWVAG and prepares reports back to BWVAG  
Meets fortnightly  
Is attended by ICB officers

**Berkshire West Vaccine Inequalities Meeting**

To be stood up if necessary to coordinate Health on the Move Van and other activities deployed to address inequalities in vaccine take up.

## 8a. Performance Monitoring and Reporting

We will monitor take up on a weekly basis as follows:

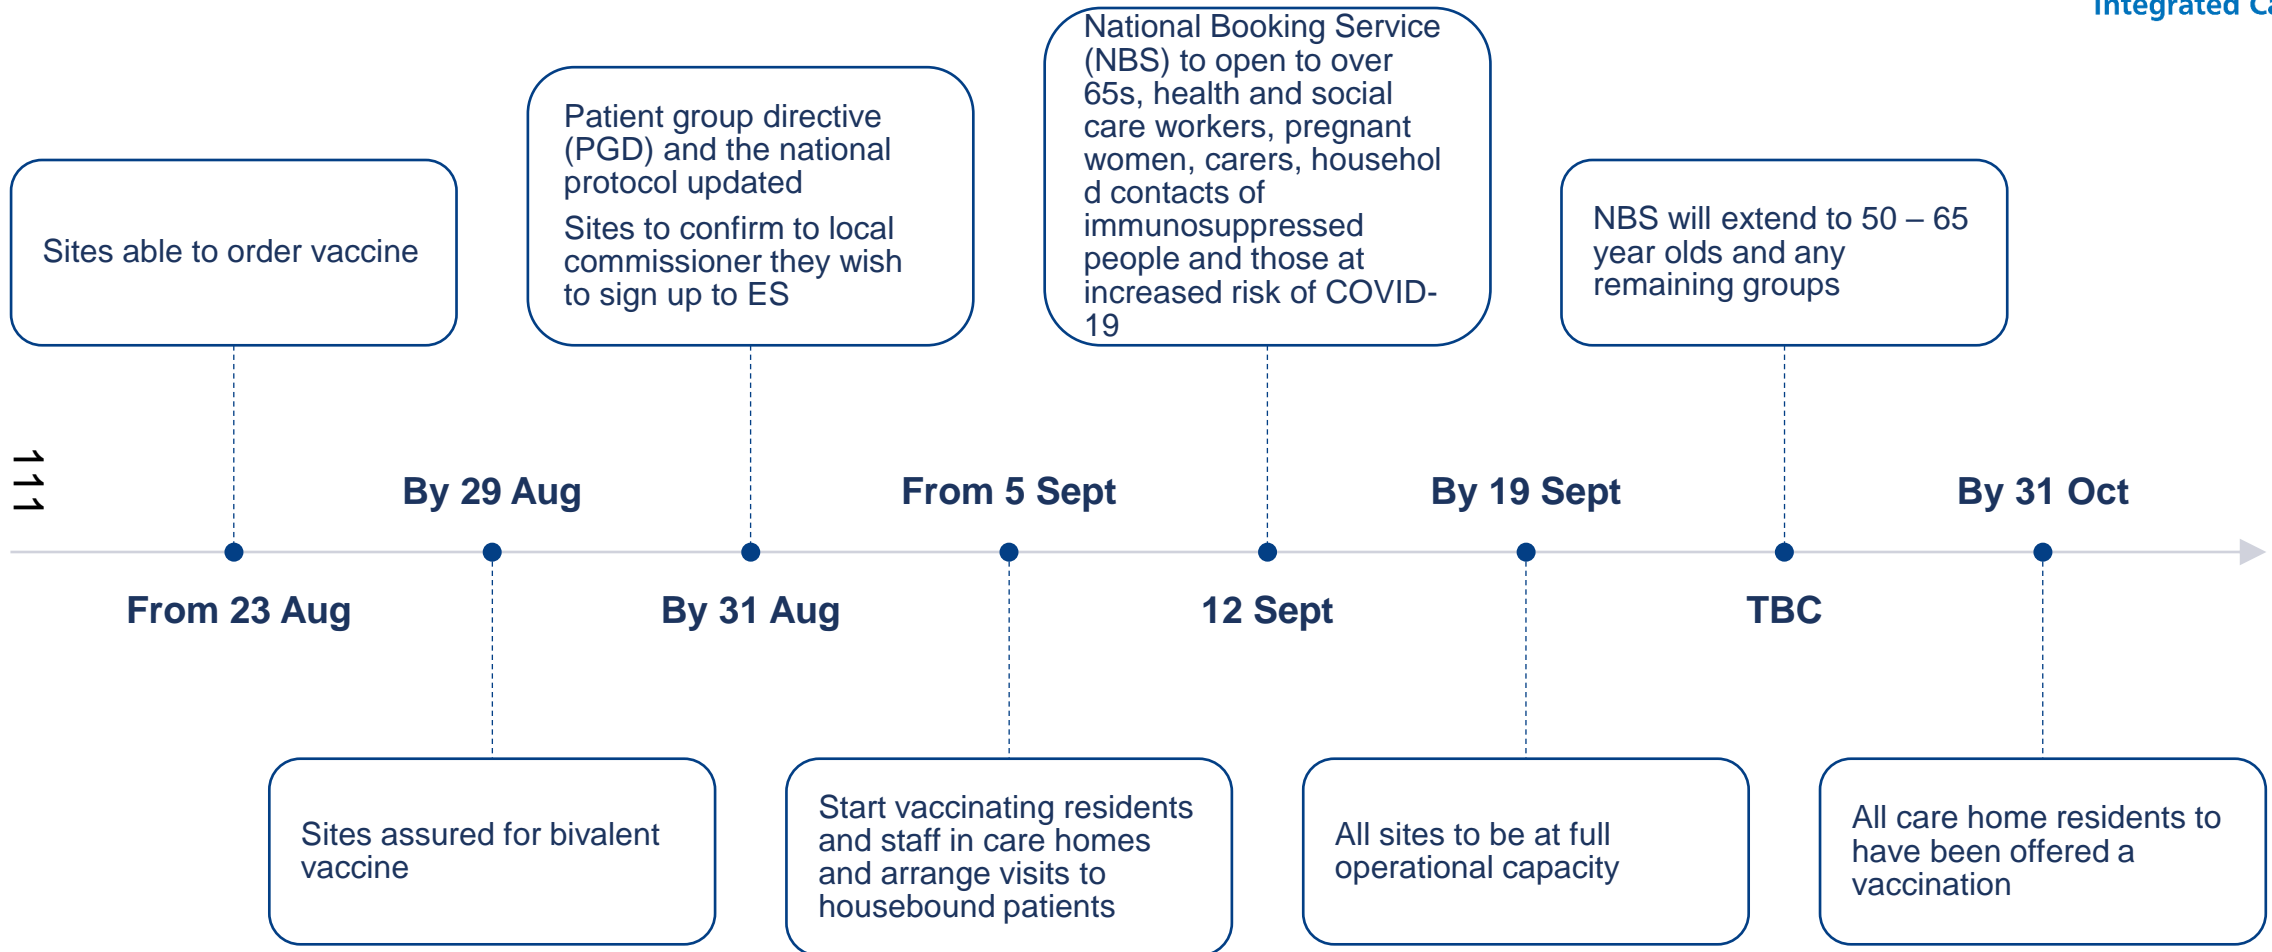

- By cohort
  - % total cohort uptake by Berkshire West, locality, ICB and nationally (if available)
  - % eligible cohort uptake by Berkshire West, locality, ICB and nationally (if available)
  - Number of vaccine doses administered above the baseline (5th September)
- By ethnic groups
  - By cohorts
- By deprivation (IMD 1&2 LSOAs)
  - By cohorts
- We will produce a fortnightly performance and insight report for Berkshire West Vaccination Action Group and the unitary authorities
- Other performance analysis will be undertaken as required

# Appendix 1 – Action Plan

#	Action	Owner	RAG	Date	Comment
1	Map provision and identify gaps	Jo/ Elliis/ Andrew/ Will	Complete	From 31/8/22	Completed
2	Identify any issues and ensure offer to all care homes and housebound patients	Helen Clark	On track	Ongoing until 21/9/22	One Reading PCN has opted out – alternative provider being sought by BOB SVOC and NHSE
3	Confirm Oxford Health offer in respect of Outreach locations and 5-11 sites	Mark Chambers OH	On track	7/9/22	Outreach offer to include 2 days per week at Wokingham Library and 1 day per week at Hungerford Croft Field Centre 5-11s offer to include 1 day per week at Wokingham Library, 1 day per fortnight in Reading and 1 day per fortnight in West Berkshire
4	Confirm community pharmacy offer in respect of age groups	Lucy Stroud NHSE	Action required	7/9/22	Update required.
5	Develop Inequalities Plan including agreed process for deployment of Health on the Move service and parallel MECC offer	BW Vaccine Inequalities Group	Action required	From 7/9	Group met for first time on 7/9/22. Work is ongoing.
6	Identify opportunities to cascade communications through system partners and their networks	BOB Comms	On track	From 5/9/22	Draft Comms Plan has been produced and is being reviewed by Place Leads
7	Confirm availability of sites and vaccines for Evergreen offer	Jo/ Elliis	Complete	Ongoing	Broad St Mall MVC is main access point. Confirming use of HOTM to continue evergreen offer in localities.
8	Align activities with Flu Plan	Jane Thomson-Smith	Action required	By end Sept	Jane to present Flu Plan at a meeting of the Vaccine Action Group
9	Discuss opportunities for sharing use of physical resources ie. vaccine vans and buses	Charlotte Church BHFT	Action required	By 8/9/22	Update required
10	Confirm vaccine offer and access to groups of particular interest such as CEV children and LD patients	BOB Inequalities group	Action required	Ongoing	Discussing at BOB Inequalities Group
11	Develop forecast model of supply and capacity to ensure delivery is on track	Andrew Price	Action required	22/09/22	Data to develop model requested is not available. An alternative model is in development.
