

<b>TITLE</b>	<b>Capital Programme and Strategy 2023-2026</b>
<b>FOR CONSIDERATION BY</b>	Council on Thursday, 16 February 2023
<b>WARD</b>	None Specific;
<b>LEAD OFFICER</b>	Deputy Chief Executive - Graham Ebers
<b>LEAD MEMBER</b>	Executive Member for Finance - Imogen Shepherd-DuBey

#### **PURPOSE OF REPORT (INC STRATEGIC OUTCOMES)**

The capital programme and strategy 2023 – 2026 sets out the capital investment for the benefit of the community and how this is funded.

#### **RECOMMENDATION**

The Council is asked to consider the recommendations of the Executive in respect of the Capital Programme and Strategy 2023- 2026. That Council approve:

- 1) the Capital Strategy for 2023 - 2026 - Appendix A;
- 2) the three-year capital programme for 2023 - 2026 – Appendix B;
- 3) the draft vision for capital investment over the next five years - Appendix C;
- 4) the use of developer contribution funding (s106 and CIL) for capital projects as set out in Appendix D. Approval is sought up to the project budget.

#### **EXECUTIVE SUMMARY**

The Chartered Institute of Public Finance & Accountancy (CIPFA) 2021 Prudential Code sets out the requirements in relation to the setting of a Capital Strategy within Local Authorities. The key objectives of the Code are to ensure, within a clear framework, that local authorities' capital investment plans are affordable, prudent, and sustainable.

Under the prudential system, individual local authorities are responsible for deciding the level of their affordable borrowing, having regard to CIPFA's Prudential Code, which has been given legislative backing. Prudential limits apply to all borrowing, qualifying credit arrangements and other long-term liabilities – whether supported by government or entirely self-financed. The system is designed to encourage authorities that need and can afford to undertake capital investment to do so within a robust framework.

Using the guidance from the Prudential Code, every year the Council produce a **Treasury Management Strategy** and a **Capital Strategy**. Both strategies are closely linked and also support the Medium Term Financial Plan. The Treasury Management Strategy is considered in a separate report.

The Capital Strategy for the three financial years from 2023 – 2026 is intended to provide a high-level overview of how capital expenditure, capital financing and treasury management contribute to the provision of services along with an overview of how associated risk is managed and the implications for future financial sustainability.

The Capital Strategy is set out in **Appendix A**.

This shows investment of c£256m over the next three years across (excluding carry forwards):

- Housing, Local Economy and Regeneration - c£123m
- Roads and Transport - c£28m
- Children Services and Schools - c£65m
- Climate Emergency - c£13m
- Internal Services - c£13m
- Environment - c£2m
- Adult Social Care - c£12m

## BACKGROUND

### Key aims of the Capital Strategy (Appendix A)

The key aims of the capital strategy are to:

- Provide a clear context within which proposals for capital expenditure are evaluated to ensure all capital investment is targeted to deliver the Council's priorities.
- Give clarity about how the Council identifies and prioritises capital requirements and proposals arising from various strategies, and how they will be managed within the limited capital resources available.
- Identify and consider options available to fund capital expenditure that minimises the ongoing revenue implications of historic capital expenditure and of any new investments.
- Establish effective arrangements for managing capital schemes including assessment of outcomes and achievement of value for money.

### Capital Expenditure

Wokingham Borough Council has an ambitious capital programme which builds upon recent years of historic capital investment in the borough including regeneration of Wokingham town, new strategic roads, schools, and leisure facilities. The Council will continue to provide services and assets for residents to enjoy and to meet their needs.

The Capital Strategy is fundamental to the effective delivery of these key activities. The table below shows the planned capital expenditure for the next three years across the key activities. The list of schemes includes a mix of approval levels; some of which are permissions to spend, some are known schemes, and some require further understanding and detailed business cases prior to commencement.

These figures exclude any carry forwards from the current financial year. The overall 2023/24 programme will be made up of new schemes identified in this report and schemes carried forward from 2022/23 which will be approved by Executive as part of the Capital monitoring outturn reports.

	2023/24 £'000	2024/25 £'000	2025/26 £'000	Total £'000
<b>Housing, Local Economy and Regeneration</b> Delivering sustainability, a strong, robust and successful economy that stimulates opportunities for all who work and live in	54,454	38,398	29,964	122,817
<b>Children Services and Schools</b> Dedicated in providing services and schools which ensure all children have the opportunity to achieve their goals potential	17,278	26,992	21,034	65,304
<b>Roads and Transport</b> Continuous investment in highways infrastructure to meet the needs of current and future users of the network	10,539	9,319	7,940	27,797

<b>Climate Emergency</b> Commitment to reduce carbon emissions and working towards becoming a carbon neutral Council	5,289	3,089	4,939	13,317
<b>Internal Services</b> Investment in Council assets and technology to continue to support all Council services and priorities	6,443	3,690	3,040	13,173
<b>Adult Social Care</b> An effective, high-quality care and support service to providing a better quality of life for residents	6,820	3,081	1,787	11,688
<b>Environment</b> Investment and enhancement of facilities across the borough benefiting communities and resident's wellbeing	883	100	1,100	2,083
<b>Total Capital Programme 2023/24 to 2025/26</b>	<b>101,706</b>	<b>84,669</b>	<b>69,804</b>	<b>256,179</b>

A full breakdown of the areas above by individual scheme can be found in **Appendix B**

The draft vision for capital investment over the next five years can be found in **Appendix C**.

### **Capital Resources (Funding of Capital Expenditure)**

Like most Local Authorities, the Council has limited capital resources available, and these are allocated to each scheme to ensure best value for money by maximising the use of grants, developer funding and capital receipts in order to minimise the need for revenue contributions and borrowing. Although borrowing does make a large portion of the capital resources, this has been calculated on a prudent, sustainable, and affordable basis. Each individual scheme is evaluated before being added to the capital programme.

The table below shows the estimated capital resources required to fund the three-year capital programme from April 2023 to March 2026.

	<b>2023/24</b>	<b>2024/25</b>	<b>2025/26</b>	<b>Total</b>
	<b>£m</b>	<b>£m</b>	<b>£m</b>	<b>£m</b>
Supported borrowing	(39.4)	(36.3)	(16.4)	(92.1)
Developer contributions (S106 / CIL)	(8.6)	(3.0)	(0.9)	(12.5)
Capital grants	(23.0)	(29.1)	(21.8)	(73.9)
Other contributions	(6.1)	(6.1)	(5.5)	(17.7)
Capital receipts	(11.3)	(1.6)	(10.2)	(23.1)
General fund borrowing	(13.3)	(4.1)	(5.2)	(22.6)
<b>Total</b>	<b>(101.7)</b>	<b>(80.2)</b>	<b>(60.0)</b>	<b>(241.9)</b>

The capital programme currently has a budget shortfall of c£28m over three years which includes a fully funded year 1 programme. This shortfall is made up of c£14m budget shortfall against the capital programme highlighted above (£256m less £242m). The remaining c£14m shortfall is the current estimated gap between CIL income and associated capital spend requirements. This shortfall over three years will be balanced through a combination of reducing or reprofiling capital expenditure, additional CIL income from potential new developments and by maximising capital funding opportunities such as bidding for capital grants.

## Developer Contributions

With regards to developer contributions funding. The Councils Finance Regulations require allocation of this funding to be approved. As set out in **Appendix D**, approval is sought up to the project budget for the capital scheme to allow flexibility if more funding becomes available during the year and can reduce borrowing costs. The Executive are asked to approve and recommend that Council approve the use of developer contribution funding (s106 and CIL) for capital projects as set out in Appendix D.

The capital programme drives the Treasury Management Strategy (see separate Executive and Council paper for the 16 February 2023), in terms of identifying and undertaking necessary borrowing. The graph below shows the estimated debt and debt repayment profile for the borrowing used to support the capital programme.

## Supported Borrowing

A significant part of the Council's capital programme is either self-financing or makes a surplus where the income generated is greater than the cost of financing and therefore is available to fund other council services. These are referred to as "supported borrowing" in the table above.

Supported borrowing activities can be broken down as follows:

### Investment in Wokingham Borough

- Regeneration. There is an ambitious programme of regeneration with the town centres of the borough. With the Council's low cost of capital and return on investment requirement compared to the private sector this allows the Council to take on and complete projects for the benefit of the local community that would otherwise not be delivered by the private sector.
- Economic Development. Likewise, the Council is able to use its resources to secure properties within town centres to ensure continued delivery of services to the community, whilst encouraging local businesses with security of tenure.
- Enabling infrastructure. The Council has always been positively proactive in delivering infrastructure in advance of developments.
- Local Employment Protection. The Council will invest to ensure local employers remain in premises and not lose economic business sites to alternative development.
- Housing. The Council has an ambitious affordable and social housing plan for the borough, delivered through its wholly owned subsidiary companies.

## Invest to Save

The Council is also investing in activities which not only cover the financing costs and debt repayment for the scheme but make income each year to contribute to the costs of running the Council, reducing the burden on the local taxpayer whilst maintaining services. These are referred to as 'invest to save' funded projects, and examples are listed below:

- Leisure and sport facilities.
- Energy reduction / efficiency.
- Social care placements provision

## **Repayment of Borrowing**

As highlighted previously, the Council continue to invest significant amounts into the capital programme generating assets such as roads, schools, housing, regeneration properties and many more. The graph below sets out the expected repayment of this debt. Further information is set out in the treasury management strategy.

The Capital financing requirement (CFR) is a technical calculation of historic capital expenditure less that already paid for, plus estimated prudential borrowing over the medium term financial plan.

The Council are expecting debt to rise over the next three years in line with the capital programme and then it is expected to reduce over time as income is generated from these projects and cost savings are realised, pending the level of further investment identified beyond the three year capital programme.

The CFR will reduce as borrowings are repaid through income and will reach a point in time when debt is fully repaid, and the ongoing income will be transferred to benefit the general fund.

The liability benchmark graph from the treasury management strategy highlights below with regards to the "CFR" line. The original CFR levels before commercialisation, forward funding and regeneration projects were approximately £100m. Further information regarding the graph can be found in the treasury management strategy.

The graph represents our best estimate of spend and borrowing over the period of the three year Capital Programme.

## FINANCIAL IMPLICATIONS OF THE RECOMMENDATION

***The Council faces unprecedented financial pressures as a result of; the longer term impact of the COVID-19 crisis, Brexit, the war in Ukraine and the general economic climate of rising prices and the increasing cost of debt. It is therefore imperative that Council resources are optimised and are focused on the vulnerable and on its highest priorities.***

	How much will it Cost/ (Save)	Is there sufficient funding – if not quantify the Shortfall	Revenue or Capital?
Current Financial Year (Year 1)	£102m	Yes	Capital
Next Financial Year (Year 2)	£85m	No	Capital
Following Financial Year (Year 3)	£70m	No	Capital

### Other Financial Information

The capital programme currently has a budget shortfall in years 2 and 3 totalling c£28m. This will be balanced through a combination of reducing or reprofiling capital expenditure and maximising capital funding opportunities such as bidding for capital grants.

The year 1 budget of £102m does not include any carry forwards from the 2022/23 capital programme. These are approved by Executive as part of the Capital monitoring outturn reports.

Please see the attached appendices for full details of the capital strategy.
